**Monstrosity from the Inside Out** Teresa Cutler-Broyles, Marko Teodorski, 2019-01-04 Emerging from darkness daring to take form and become something more than the Other monsters stalk these pages shifting form in true monstrous fashion as they inhabit literature and film history and parallel communities modelled after our own They become enmeshed in popular music run rampant through cities take androgynous form to rally for their own identities their own futures and their own families and they hold up mirrors while we are caught shattering our sense of Self Both the past and the future are rich fodder for the evil that monsters do and from freak show to homunculus to serial killer to cyborg they remind us that they are never far from sight and that we cannot look away even if we wish to Monstrosity from the Inside Out takes as the paradox that monsters are simultaneously impossible and very much a part of what it means to be human

Combining Aesthetic and Psychological Approaches to TV Series Addiction Sébastien Lefait, Anne-Marie Paquet-Deyris, 2018-07-26 This book establishes and then analyses the interrelation between series and dependence by focusing on two aspects of their connection the overconsumption of TV series and the production devices that lead to it Due to its two sided nature the volume brings together specialists from different backgrounds On the one hand it involves people working with addiction such as psychiatrists psychologists and social workers whose analytical tools and

statistics are extremely useful in assessing the prevalence of TV series addiction as well as its consequences in order to make sense of its mechanics For similar reasons the authors also include professionals working with children and teenagers since youths under 18 are largely affected by addictive tendencies On the other hand other contributions here are authored by TV series specialists producers and scriptwriters as well as academics in the fields of film and TV series studies cultural studies and narratology Their specific perspectives on the topic help better understand what it is about the construction or reception of TV series that aims to create maintain amplify or on the contrary curb their ingrained addictive effects

**Monstrous manifestations: Realities and the Imaginings of the Monster** Agnieszka Stasiewicz-Bienkowska, Karen Graham, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2013 Monstrous manifestations Realities and Imaginings of the Monster presents an enlightening collection of inter disciplinary research on the multifarious incarnations of the monster Exploring the fears hopes and concerns of contemporary and bygone times alike through the literary cinematic artistic cultural and political metaphor of the monstrous this volume will be of interest to both the expert and the amateur monster aficionado Encompassing a variety of theoretical frameworks Monstrous manifestations illuminates the monsters lurking in studies of gender media and literature as well as of religions and popular culture Consorting with witches vampires shape shifters clones and hybrids and acquainting with killers deformed creatures and beings undefined the authors daringly stalk the monsters coming out of their traditional lairs and colonising the new and constantly expanding social cultural psychological and political spaces inviting the reader to journey with them as they venture into the monster s terrain

*DEXTER: FROM THE ORIGINAL SERIES TO NEW BLOOD,*

*ORIGINAL SIN AND RESURRECTION* Sherif M. Awad, 2025-04-14 Dexter From the Original Series to New Blood Original Sin and Resurrection dives deep into the darkly captivating world of Dexter Morgan the forensic blood spatter analyst with a secret life as a serial killer of serial killers From his chilling debut in Showtime's groundbreaking Dexter series to the haunting landscapes of Dexter New Blood the twisted beginnings in Dexter Original Sin and the teased future in Dexter Resurrection this book explores the evolution of a television antihero who redefined the genre Written by film critic and cultural analyst Sherif M Awad this guide is a must read for die hard fans and newcomers alike It offers a detailed examination of each show's narrative arc character development iconic performances especially that of the magnetic Michael C Hall and how the franchise made the unimaginable idea of a charming serial killer feel disturbingly relatable Whether you're curious about the psychological underpinnings of Dexter's code intrigued by the shifting portrayals of Harry Morgan or just eager to revisit your favorite kills and plot twists this book is your comprehensive companion to the entire Dexter universe Get ready to walk in the blood stained shoes of Dexter Morgan like never before

*Political Pathologies from The Sopranos to Succession* Robert Samuels, 2023-03-10 Political Pathologies from The Sopranos to Succession argues that highly praised prestige TV shows reveal the underlying fantasies and contradictions of uppermiddle class political centrists Through a psychoanalytic interpretation of The Sopranos Breaking Bad The Wire House of Cards Dexter Game of Thrones and Succession Robert Samuels uncovers how moderate liberals have helped to produce and maintain the libertarian Right Samuels analysis explores the difference between contemporary centrists and the foundations of liberal democracy exposing the myth of the liberal media and considers the consequences of these celebrated series including the undermining of trust in modern liberal democratic institutions Political Pathologies from The Sopranos to Succession contributes to a greater understanding of the ways media and political ideology can circulate on a global level through the psychopathology of class consciousness This book will be of great interest to academics and scholars considering intersections of psychoanalytic studies television studies and politics

*The Myth of the Born Criminal* Jarkko Jalava, Stephanie Griffiths, Michael Maraun, 2015-07-06 By some estimates there are as many as twelve million psychopaths in the United States alone Cold blooded remorseless and strangely charismatic they commit at least half of all serious and violent crimes Supposedly most serial killers are psychopaths as surprisingly are large numbers of corporate executives They seem to be an inescapable and fascinating threat in our midst But is psychopathy a brain disorder as many scientists now claim Or is it just a reflection of modern society's deepest fears The Myth of the Born Criminal offers the first comprehensive critique of the concept of psychopathy from the eighteenth century origins of the born criminal theory to the latest neuroimaging behavioural genetics and statistical studies Jarkko Jalava Stephanie Griffiths and Michael Maraun use their expertise in neuropsychology psychometrics and criminology to dispel the myth that psychopathy is a biologically based condition Deconstructing the emotive language with which both research scientists and reporters describe the psychopaths among us they explain how the

idea of psychopathy offers a comforting neurobiological solution to the mystery of evil A stunning merger of rigorous science and clear sighted cultural analysis The Myth of the Born Criminal is for anyone who wonders just what truth or fiction lurks behind the study of psychopathy      The Psychology of Twilight E. David Klonsky,Alexis Black,2011-10-04 You ve read the books You ve seen the films Now get inside the heads of your favorite Twilight characters just like Edward can in The Psychology of Twilight Explore the minds and motives of Bella Edward Jacob and more with a deeper look at the series that s captured the hearts and psyches of millions Find out How Edward and Jacob match up in an evolutionary psychology smackdown for Bella s and our affection Whether Bella s motorcycle riding and cliff diving in New Moon are suicidal or her salvation Why vampires and werewolves aren t so different after all at least psychologically The emotional appeal of love stories like Bella and Edward s Why being a part of Twilight fandom is good for your psychological health Snuggle up on the closest chaise and get ready to revisit the Twilight Saga with some professional help      *SPARC 12 Proceedings* University of Salford,2013-08-13 These proceedings bring together a selection of papers from the 2012 Salford Postgraduate Annual Research Conference SPARC They reflect the breadth and diversity of research interests showcased at the conference at which over 130 researchers from Salford the North West and other UK universities presented their work 21 papers are collated here from the humanities arts social sciences health engineering environment and life sciences built environment and business      *Adapting Detective Fiction* Neil McCaw,2011-01-20      **Dexter and Philosophy** Richard Greene,George A. Reisch,Rachel Robison,2011-04-12 What explains the huge popular following for Dexter currently the most watched show on cable which sympathetically depicts a serial killer driven by a cruel compulsion to brutally slay one victim after another Although Dexter Morgan kills only killers he is not a vigilante animated by a sense of justice but a charming psychopath animated by a lust to kill ritualistically and bloodily However his gory appetite is controlled by Harry s Code which limits his victims to those who have gotten away with murder and his job as a blood spatter expert for the Miami police department gives him the inside track on just who those legitimate targets may be In Dexter and Philosophy an elite team of philosophers don their rubber gloves and put Dexter s deeds under the microscope Since Dexter is driven to ritual murder by his Dark Passenger can he be blamed for killing especially as he only murders other murderers Does Dexter fit the profile of the familiar fictional type of the superhero What part does luck play in making Dexter who he is How and why are horror and disgust turned into aesthetic pleasure for the TV viewer How essential is Dexter s emotional coldness to his lust for slicing people up Are Dexter s lies and deceptions any worse than the lies and deceptions of the non criminals around him Why does Dexter long to be a normal human being and why can t he accomplish this apparently simple goal      **Advances in Psychology and Law** Monica K. Miller,Brian H. Bornstein,2020-11-23 This volume consists of up to date review articles on topics relevant to psychology and law and will be of current interest to the field These topics are currently attracting a great deal of research and public policy attention in the U S and elsewhere and will be relevant to researchers clinical practitioners

and policy makers Topics include attitudes toward police Cole et al accuracy of memory for child sexual abuse Goldfarb et al the use of interpreters in investigations Goodman Delahunty et al adjustment of former prisoners post exoneration Kirshenbaum et al psychological implications for gun policy Pirelli et al ability to match people with images from ID cards and video Rumschik et al judicial instructions on eyewitness evidence Skalon et al social science of the death penalty West et al and informant testimony Wetmore et al

*The Psychology of Abandon* Kirby Farrell, 2016-01-25 When behavior becomes a cultural style berserk abandon is terrifying yet also alluring It promises access to extraordinary resources by overthrowing inhibitions Berserk style has shaped many areas of contemporary American culture from warfare to politics and intimate life Focusing on post Vietnam America and using perspectives from psychology anthropology and physiology Farrell demonstrates the need to unpack the confusions in language and cultural fantasy that drive the nation's fascination with berserk style This book amazes me with its audacity its clarity and its scope We usually think of berserk behaviors from apocalyptic rampage killings to ecstatic revels like Burning Man as extremes of experience outside ordinary lives With rich evidence and fascinating detail Farrell shows how contemporary culture has re framed many varieties of the berserk into self conscious strategies of sense making and control Beyond real but remote actions of the intoxicated or deranged berserk style has become a common lens for organizing modern experience and an often troubling resource for mobilizing and rationalizing cultural and political action This landmark analysis both enlightens and empowers us

Les Gasser Professor of Information and Computer Science University of Illinois Urbana Champaign Drawing from a storehouse of cinema news stories ads cartoons literature and lyrics from the post Vietnam era Farrell has painted a masterful disturbing portrait of the American subconscious James Aho author of *Sociological Trespasses* Farrell has undertaken yet another fascinating journey He explores phenomena such as Columbine Mike Tyson Going Postal and Wall Street excesses to reveal an underlying style of thinking that is pervasive in American culture As always he is a provocative and highly readable cultural critic

Don Dutton Professor of Psychology University of British Columbia

*The Psychology of Zelda* Anthony Bean, 2019-02-19 It's dangerous to go alone Take this book For more than 30 years The Legend of Zelda which immerses players in a courageous struggle against the shadowy forces of evil in a world of high fantasy has spanned more than 30 different installments selling over 75 million copies Today it is one of the most beloved video game franchises around the globe Video game sales as a whole have continued to grow now raking in twice as much money per year as the entire film industry and countless psychologists have turned their attention to the effects gaming has on us our confidence our identity and our personal growth The Psychology of Zelda applies the latest psychological findings plus insights from classic psychology theory to Link Zelda Hyrule and the players who choose to wield the Master Sword In The Psychology of Zelda psychologists who love the games ask How do Link's battles in Ocarina of Time against Dark Link his monstrous doppelganger mirror the difficulty of confronting our personal demons and the tendency to be our own worst enemies What lessons about pursuing life's greater meaning can we take away

from Link's quests through Hyrule and beyond the stereotypical video game scenario of rescuing a Princess Zelda. What do we experience as players when we hear that familiar royal lullaby on the ocarina, Saria's spirited melody in the Lost Woods or the iconic main theme on the title screen? How do the obstacles throughout Majora's Mask represent the Five Stages of Grief? What can Link's journey to overcome the loss of the fairy Navi teach us about understanding our own grief and depression? Why are we psychologically drawn to the game each and every time a new version becomes available even when they all have a similar storyline? Think you've completed the quest? The Psychology of Zelda gives you new thrilling dungeons to explore and even more puzzles to solve.

### **Expert Testimony on the Psychology of Eyewitness Identification** Brian L.

Cutler, 2009-08-27 Eyewitness testimony is highly compelling in a criminal trial and can have an indelible impact on jurors. However, two decades of research on the subject have shown us that eyewitnesses are sometimes wrong even when they are highly confident that they are making correct identifications. This book brings together an impressive group of researchers and practicing attorneys to provide current overviews and critiques of key topics in eyewitness testimony.

### **Handbook of Psychology and Law** Dorothy K. Kagehiro, William S. Laufer, 2013-06-29

Shari Seidman Diamond. Scholars interested in psychology and law are fond of claiming origins for psycholegal research that date back four score and three years ago to Hugo von Munsterberg's *On the Witness Stand* published in 1908. These early roots can mislead the casual observer about the history of psychology and law. Vigorous and sustained research in the field is a recent phenomenon. It is only 15 years since the first review of psychology and law appeared in the *Annual Review of Psychology* (Tapp, 1976). The following year saw the first issue of *Law and Human Behavior*, the official publication of the American Psychology Law Society, and now the journal of the American Psychological Association's Division of Psychology and Law. Few psychology departments offered even a single course in psychology and law before 1973, while by 1982, 14 of psychology graduate programs had at least one course and a number had begun to offer forensic minors and/or joint J.D./Ph.D. programs. Freeman Roesch (see Chapter 28). Yet this short period of less than 20 years has seen a dramatic level of activity. Its strengths and weaknesses, excitements and disappointments are all captured in the collection of chapters published in this first *Handbook of Psychology and Law*. In describing what we have learned about psychology and law, the works included here also reveal the questions we have yet to answer and thus offer a blueprint for activities in the next 20 years.

### Serial Killers in Contemporary Television Brett A.B. Robinson, Christine Daigle, 2022-06-13

This volume examines the significant increase in representations of serial killers as central characters in popular television over the last two decades. Via critical analyses of the philosophical and existential themes presented to viewers and their place in the cultural landscape of contemporary America, the authors ask: What is it about serial killers that incited such a boom in these types of narratives in popular television post-9/11? Looking past the serial format of television programming as uniquely suited for the presentation of the serial killer's actions, the chapters delve into deeper reasons as to why TV has proven to be such a fertile ground for serial killer narratives in contemporary popular

culture An international team of authors question What is it about serial killers that makes these characters deeply enlightening representations of the human condition that although horrifically deviant reflect complex elements of the human psyche Why are serial killers intellectually fascinating to audiences How do these characters so deeply affect us Shedding new light on a contemporary phenomenon this book will be a fascinating read for all those at the intersection of television studies film studies psychology popular culture media studies philosophy genre studies and horror studies **The**

**University of Illinois, 1894-1904** Winton U. Solberg, 2000 The distinguished historian Winton U Solberg presents a detailed case study of one institution s transformation into a modern American university The years 1894 to 1904 mark the stormy tenure of Andrew S Draper as president of the University of Illinois Draper a successful superintendent of schools with no college or university experience and no credentials as a post secondary administrator presided over many crucial improvements in the university s physical plant curricula and other areas However he failed to infuse the university with a spirit of cohesion and his term as president was fraught with conflict From his inauguration on the autocratic Draper collided with deans and faculty who opposed both the substance of his changes and the manner in which he presented and implemented them This volume closely examines the Draper years from the perspectives of faculty students and administrators Solberg outlines the administrative faculty staff and physical infrastructure He also reveals a vibrant and varied student life including a whirl of social activities literary societies intercollegiate debate and athletics hazing religion and increasingly prominent fraternities A sharply delineated and detailed picture of a university in transition The University of Illinois 1894 1904 traces the school s shift from an institution known primarily as a training ground for engineers to a full fledged university poised to compete on the national level

The Top Books of the Year The Psychology Of Dexter The year 2023 has witnessed a noteworthy surge in literary brilliance, with numerous compelling novels enthralling the hearts of readers worldwide. Lets delve into the realm of bestselling books, exploring the engaging narratives that have enthralled audiences this year. The Must-Read : Colleen Hoover's "It Ends with Us" This poignant tale of love, loss, and resilience has captivated readers with its raw and emotional exploration of domestic abuse. Hoover skillfully weaves a story of hope and healing, reminding us that even in the darkest of times, the human spirit can prevail. Uncover the Best : Taylor Jenkins Reid's "The Seven Husbands of Evelyn Hugo" This spellbinding historical fiction novel unravels the life of Evelyn Hugo, a Hollywood icon who defies expectations and societal norms to pursue her dreams. Reid's absorbing storytelling and compelling characters transport readers to a bygone era, immersing them in a world of glamour, ambition, and self-discovery. Discover the Magic : Delia Owens' "Where the Crawdads Sing" This captivating coming-of-age story follows Kya Clark, a young woman who grows up alone in the marshes of North Carolina. Owens spins a tale of resilience, survival, and the transformative power of nature, captivating readers with its evocative prose and mesmerizing setting. These top-selling novels represent just a fraction of the literary treasures that have emerged in 2023. Whether you seek tales of romance, adventure, or personal growth, the world of literature offers an abundance of engaging stories waiting to be discovered. The novel begins with Richard Papen, a bright but troubled young man, arriving at Hampden College. Richard is immediately drawn to the group of students who call themselves the Classics Club. The club is led by Henry Winter, a brilliant and charismatic young man. Henry is obsessed with Greek mythology and philosophy, and he quickly draws Richard into his world. The other members of the Classics Club are equally as fascinating. Bunny Corcoran is a wealthy and spoiled young man who is always looking for a good time. Charles Tavis is a quiet and reserved young man who is deeply in love with Henry. Camilla Macaulay is a beautiful and intelligent young woman who is drawn to the power and danger of the Classics Club. The students are all deeply in love with Morrow, and they are willing to do anything to please him. Morrow is a complex and mysterious figure, and he seems to be manipulating the students for his own purposes. As the students become more involved with Morrow, they begin to commit increasingly dangerous acts. The Secret History is an exceptional and thrilling novel that will keep you wondering until the very end. The novel is a cautionary tale about the dangers of obsession and the power of evil.
