as it were a similarity The secrets of the past in other words are alive and well today and so shall they continue into tomorrow for those who might look With logic and common sense attempting to back up the experiences and put them in a clear light this book aims to both provide a look into the paranormal as it is and also give some humour and ease with which these phenomena may be approached All in all and as the main message is repeated throughout it is experience that is king and not mere preference *Mastering the Core Teachings of the Buddha* Daniel Ingram, 2018-06-06 The very idea that the teachings can be mastered will arouse controversy within Buddhist circles Even so Ingram insists that enlightenment is an attainable goal once our fanciful notions of it are stripped away and we have learned to use meditation as a method for examining reality rather than an opportunity to wallow in self absorbed mind noise Ingram sets out concisely the difference between concentration based and insight vipassana meditation he provides example practices and most importantly he presents detailed maps of the states of mind we are likely to encounter and the stages we must negotiate as we move through clearly defined cycles of insight Its easy to feel overawed at first by Ingram s assurance and ease in the higher levels of consciousness but consistently he writes as a down to earth and compassionate guide and to the practitioner willing to commit themselves this is a glittering gift of a book In this new edition of the bestselling book the author rearranges revises and expands upon the original material as well as adding new sections that bring further clarity to his ideas
