## Configuring Your System

When you use your Wii U system for the first time, it will be necessary to pair the GamePad with your console, and you will need to configure some initial settings such as the date, time, and the display setting to use on your TV.

### 1 Turn the TV and Wii U console on, then select the correct input setting for your TV or AV component

If you are using the HDMI cable, after changing the input setting it may take a moment until an image is displayed on the TV screen, depending on your TV model.

- If the console does not power on or the image does not appear on the TV, check to make sure the console is connected correctly. (See **Connecting the Console to a TV** on the front side of this Quick Start Guide.)
- More information on input settings is available at [support.nintendo.com/consumer/inputselects.html](http://support.nintendo.com/consumer/inputselects.html)

### 2 Turn the GamePad on

- If the unit is still charging (the battery LED is lit), operate it with the AC adapter connected until the GamePad is fully charged.

### 3 Pair the GamePad with the Wii U Console

Press the SYNC Buttons on the Wii U console and GamePad to pair them, as shown below.

- 1 Press the SYNC Button on the Wii U console.

- 2 Use the GamePad stylus to press the SYNC Button on the back of the controller.
