

KEY CONCEPTS FOR WORLD HISTORY

Introduction Lesson Guide

Here is how introducing the big ideas or key concepts works in my class:

Step 1: Introduction, 30 minutes- Introduce the key concept categories with the students. Students fill in the blanks in the graphic organizer handout (page 3) from the PowerPoint. Usually, I do this in the beginning of the year. However, it can be done after a unit of study, so examples can be used from the curriculum that are fresh in student minds. Remember, some key concepts will be more prevalent in some civilizations. For example, major achievements may be easier to identify in China in comparison to Africa.

Step 2: Concept Matching, 10-15 minutes (pages 5-6) - This document has an introductory key concept matching, however, each unit also has a selection of curriculum examples for students to match to the concept categories. These can be found in our test and study guides subfolder, or sold separately at the Instructomania store.

I start with having students quietly place the term/concept letter next to each key concept (choose one of the two templates on pages 5-6). Then, we discuss the answers. Note that in part B, some terms or topics can fit into more than one key concept category. That is fine! In fact, it will lead to a great discussion on how policies or concepts are related, and are often interdependent. For example, geographic expansion is often linked with economic development and government is often linked with social class.

Step 3: My World Big Ideas Introduction Activity, 15-20 minutes (page 7) - Sometimes homework, this activity creates a bridge between the key concepts for the year and students' lives. This is a great activity to hang on walls, as students can draw or cut and paste pictures of themselves in the middle of the page. This is a good beginning of the year sharing activity, too!
