

## Factor Market Pricing

Suppose that the Acme Belt Company (ABC) is a price taker in both the input and output markets—that is, it sells belts in a perfectly competitive market and purchases labor in a perfectly competitive market.

### Part A

- Fill in the blank spaces in Figure 47.1. Note that marginal data are placed between levels of employment.

Figure 47.1

### Labor Demand for the Perfectly Competitive Firm

Employment Number of Workers (L)	Total Output Per Day (Q)	Marginal Physical Product (MPP) ( $\Delta Q / \Delta L$ )	Marginal Revenue Product (MPP $\times$ P) $P_B = \$2.00$ $P_B = \$2.50$
0	0		—
1	10	10	\$20.00
2	30	20	40.00
3	70	40	100.00
4	105	30	60.00
5	135	25	62.50
6	160	20	50.00
7	180	15	20.00
8	195	10	0
9	205	10	
10	205	0	
11	195	-10	

An individual firm's factor demand curve is restricted to a range of the  $MRP_L$  curve that is downward sloping, beginning at  $L = 3$  for ABC.

- If the marginal resource cost, or wage, faced by ABC is \$20 and the price of belts is \$2 per belt, then the quantity of labor demanded by ABC is \_\_\_\_\_.
- If the marginal resource cost, or wage, faced by ABC is \$20 and the price of belts is \$2.50 per belt, then the quantity of labor demanded by ABC is \_\_\_\_\_.

**Staging & Performing Scientific Concepts** Lilian Pozzer Ardenghi, Wolff-Michael Roth, 2010-01-01 In this book the authors argue that science concepts are more than what lecturers say and write on the board science concepts cannot be abstracted from the complex performances that take place in the classroom Through analysis of nonverbal aspects of communication and interaction during science lectures which take into account the body how it is placed in and moves across space its orientation its movements gestures the aspects of the setting it marks and other resources used the authors show how each one of the resources employed provides different types and amounts of information that need to be taken into consideration all together as a unit to mark and re mark sense so that audiences may remark it The book also provides examples that show how the integration of multiple resources provides the coherence of the ideological unit presenting lectures as an integrated performance of knowledge in action The book is of interest for science educators and learning scientists in general as well as scholars interested in multimodal analysis of interaction and face to face communication

*Fractals for the Classroom: Strategic Activities Volume Two* Heinz-Otto Peitgen, Hartmut Jürgens, Dietmar Saupe, Evan Maletsky, Terry Perciante, Lee Yunker, 2013-06-29 The same factors that motivated the writing of our first volume of strategic activities on fractals continued to encourage the assembly of additional activities for this second volume Fractals provide a setting wherein students can enjoy hands on experiences that involve important mathematical content connected to a wide range of physical and social phenomena The striking graphic images unexpected geometric properties and fascinating numerical processes offer unparalleled opportunity for enthusiastic student inquiry Students sense the vigor present in the growing and highly integrative discipline of fractal geometry as they are introduced to mathematical developments that have occurred during the last half of the twentieth century Few branches of mathematics and computer science offer such a contemporary portrayal of the wonderment available in careful analysis in the amazing dialogue between numeric and

geometric processes and in the energetic interaction between mathematics and other disciplines Fractals continue to supply an uncommon setting for animated teaching and learning activities that focus upon fundamental mathematical concepts connections problem solving techniques and many other major topics of elementary and advanced mathematics It remains our hope that through this second volume of strategic activities readers will find their enjoyment of mathematics heightened and their appreciation for the dynamics of the world increased We want experiences with fractals to enliven curiosity and to stretch the imagination
