America's First Network TV Censor Robert Pondillo,2010-04-23 America's First Network TV Censor The Work of NBC's Stockton Helffrich is a unique examination of early television censorship centered around the papers of Stockton Helffrich the first manager of the

censorship department at NBC Set against the backdrop of postwar America and contextualized by myriad primary sources including original interviews and unpublished material Helffrich's reports illustrate how early censorship of advertising language and depictions of sex violence and race shaped the new medium While other books have cited Helffrich's reports none have considered them as a body of work complemented by the details of Helffrich's life and the era in which he lived

America's First Network TV Censor explores the ways in which Helffrich's personal history and social class influenced his perception of his role as NBC TV censor and his tendency to ignore certain political and cultural taboos while embracing others Author Robert Pondillo considers Helffrich's life in broadcasting before and after the Second World War and his censorial work in the context of 1950s American culture and emerging network television Pondillo discusses the ways that cultural phenomena including the arrival of the mid twentieth century religious boom McCarthyism the dawn of the Civil

Rights era and the social upheaval over sex music and youth contributed to a general sense that the country was morally adrift and ripe for communist takeover Five often censored subjects advertising language and depictions of sex violence and race are explored in detail exposing the surprising complexity and nuance of early media censorship Questions of whether too many sadistic westerns would coarsen America's children how to talk about homosexuality without using the word homosexuality and how best to advertise toilet paper without offending people were on Helffrich's mind his answers to these questions helped shape the broadcast media we know today

Playing Doctor Joseph Turow,2010-08-26 Joe Turow's *Playing Doctor* disquiets and challenges the reader's intellect with cogent analysis of the forces that have shaped television's portrayal of doctors and the medical world For that alone it is a fantastic read But Dr Turow also pleases the mind with well written and amusing stories interviews and behind the scenes anecdotes that bring to life in an eminently readable style the fascinating world of TV medicine David Foster M D supervising producer writer and medical consultant for House Joseph

Turow takes us behind the scenes of such hit television series as ER Grey's Anatomy and House to reveal the complex relationship viewers have with their beloved fictional caregivers Turow carefully probes the history of TV medical series and presents a compelling argument for telling more truthful medical stories in the future to reflect and address the precarious state of our health care system today Neal Baer M D executive producer of Law Order Special Victims Unit The great contribution of Turow's book in addition to providing a highly readable and smart overview of medical shows over the years is to examine the consequences of the gap between the reality of medical care and the often romanticized heroic depictions

on television This would be a very good book for professors to use in teaching a range of courses in communications studies from introductory courses to more specialized classes on health and the media Susan Douglas Catherine Neafie Kellogg Professor Arthur F Thurnau Professor Communications Studies Department Chair University of Michigan *Playing Doctor* is an engaging and highly perceptive history of the medical TV series from its inception to the present day Turow offers an inside look at the creation of iconic doctor shows as well as a detailed history of the programs an analysis of changing public perceptions of doctors and medicine and an insightful commentary on how medical dramas have both exploited and shaped these perceptions Drawing on extensive interviews with creators directors and producers *Playing Doctor* is a classic in the field of communications studies This expanded edition includes a new introduction placing the book in the contemporary context of the health care crisis as well as new chapters covering the intervening twenty years of television programming Turow uses recent research and interviews with principals in contemporary television doctor shows such as *ER* *Grey s Anatomy* *House* and *Scrubs* to illuminate the extraordinary ongoing cultural influence of medical shows *Playing Doctor* situates the television vision of medicine as a limitless high tech resource against the realities underlying the health care debate both yesterday and today Joseph Turow is Robert Lewis Shayon Professor at the Annenberg School for Communication University of Pennsylvania He was named a Distinguished Scholar by the National Communication Association and a Fellow of the International Communication Association in 2010 He has authored eight books edited five and written more than 100 articles on mass media industries He has also produced a DVD titled *Prime Time Doctors Why Should You Care* that has been distributed to all first year medical students with the support of the Robert Wood Johnson Foundation Praise for the first edition of *Playing Doctor* With *Playing Doctor* Joseph Turow has established himself as one of the foremost analytic historians of the interplay between television its audiences and other American institutions George Comstock S I Newhouse Professor at the Newhouse School of Public Communications Syracuse University in Health Affairs Cover image Eric Dane Kate Walsh Sara Ramirez and crew members on the set of *Grey s Anatomy* American Broadcasting Company Inc *Legitimizing Television* Michael Z Newman, Elana Levine, 2012-02-27 *Legitimizing Television* Media Convergence and Cultural Status explores how and why television is gaining a new level of cultural respectability in the 21st century Once looked down upon as a plug in drug offering little redeeming social or artistic value television is now said to be in a creative renaissance with critics hailing the rise of Quality series such as *Mad Men* and *30 Rock* Likewise DVDs and DVRs web video HDTV and mobile devices have shifted the longstanding conception of television as a household appliance toward a new understanding of TV as a sophisticated high tech gadget Newman and Levine argue that television s growing prestige emerges alongside the convergence of media at technological industrial and experiential levels Television is permitted to rise in respectability once it is connected to more highly valued media and audiences Legitimation works by denigrating ordinary television associated with the past distancing the television of the present from the feminized and mass

audiences assumed to be inherent to the old TV. It is no coincidence that the most validated programming and technologies of the convergence era are associated with a more privileged viewership. The legitimization of television articulates the medium with the masculine over the feminine, the elite over the mass, reinforcing cultural hierarchies that have long perpetuated inequalities of gender and class. Legitimizing Television urges readers to move beyond the question of taste, whether TV is good or bad, and to focus instead on the cultural, political, and economic issues at stake in television's transformation in the digital age.

Holocaust Cinema Complete Rich Brownstein, 2021-10-01 Holocaust movies have become an important segment of world cinema and the de facto Holocaust education for many. One quarter of all American produced Holocaust related feature films have won or been nominated for at least one Oscar. In fact, from 1945 through 1991, half of all American Holocaust features were nominated. Yet most Holocaust movies have fallen through the cracks and few have been commercially successful. This book explores these trends and many others with a comprehensive guide to hundreds of films and made-for-television movies. From Anne Frank to Schindler's List to Jojo Rabbit, more than 400 films are examined from a range of perspectives: historical, chronological, thematic, sociological, geographical, and individual. The filmmakers are contextualized, including Charlie Chaplin, Sidney Lumet, Steven Spielberg, Quentin Tarantino, and Roman Polanski. Recommendations and reviews of the 50 best Holocaust films are included, along with an educational guide, a detailed listing of all films covered, and a four-part index/glossary.

The New Gay for Pay Julia Himberg, 2018-01-13 Television conveys powerful messages about sexual identities and popular shows such as *Will* how those practitioners operate within media conglomerates and perhaps most important, how they contribute to commonsense ideas about sexuality.

At its core, PrayFit is about effort: giving your best in two areas that are vital to well-being: faith and fitness. The underlying approach is simple: Make a daily appointment to spend quality time with the Lord and to exercise. This 28-day plan guides readers of any fitness level to begin a workout routine that can be done at home with little to no equipment, to make small but effective changes in their diet, and to grow in biblical knowledge and spiritual strength. As they follow the specially designed meal plans and workouts, readers will see the physical results of their efforts almost immediately, and as they reflect on the daily devotional reading contributions from Pastor Jimmy Page, VP of Field Ministry and National Director of Wellness for the Fellowship of Christian Athletes, and Scripture verses, they will begin to understand the eternal dimension of giving their best. Living God's promised abundant life isn't only about faith, though that's where it starts. PrayFit is the best way to claim that promise both inside and out.
