Perspective John K. Walton,2016-04-08 Spa resorts were a favoured destination for affluent seekers after health and
comfortable leisure in opulent surroundings from the seventeenth to the twentieth century although in the railway age they
began to suffer from competition from new fashions in leisure and tourism especially the seaside holiday During their heyday
the leading spa resorts became hotbeds of political and diplomatic intrigue and gathering points for high society As such they
also became important businesses and distinctive carefully managed urban environments Taking the waters at a mineral
springs resort fell into eclipse over much of the Western world in the mid twentieth century only to revive in more diffuse
guise as health and wellness tourism in the new millennium This book examines an important body of practices and
experiences from the perspectives of health pleasure conspicuous consumption and display urban governance culture and
politics across a quarter of a millennium drawing its examples not only from the British Isles France Spain and Central
Europe but also from the United States and Australia An international team of distinguished historians puts this neglected
theme back on the historical map at a time when spas and their treatments have never been so popular and visible in
contemporary society This book was published as a special issue of the Journal of Tourism History The Boston Medical
and Surgical Journal ,1884 Journal New South Wales. Parliament. Legislative Council,1887 *Votes & Proceedings* New
