Mark Clifton, 2020-05-21 One of the most literary and innovative science fiction writers of the early 1950s Mark Clifton introduced sophisticated psychological insights into the characters who populated his tales of alien encounters expanding technology revolution against political theocracy and space colonization The title tale centering on a psychologist who uncovers a hidden colony of otherworldly invaders and craftily orchestrates their doom is accompanied by nine other perceptive and witty stories *What Have We Done* Tom Law, **What Have You Done With Your Moment** Richard Bootle, 2022-12-28 A person can have one traumatic experience in life and that experience can determine the course of the rest of his or her life One experience gave the author the idea for this manuscript When the author saw people demonstrating at the Michigan State Capitol during the pandemic when the governor ordered lockdowns that is when he asked the question Is this what they will be telling their grandchildren and great grandchildren thirty or forty years from now Is this what they did with that moment in time Then he looked at famous people who went on long before us and he asked them what they have done with their moment Some great entertainers some great sporting figures some great African American inventors and current famous politicians Then he concluded that our lives are filled with moments This author concludes that your moment is your life However you don't go up to someone and ask them what they have done with their life because people might not be satisfied with how their life turned out This question causes them to rationalize Ask them what they have done with their moment and they will talk to you all day *What have the Council done?
