## II. RESEARCH PROBLEM STATEMENT

There is a significant need to assemble and prepare a best practices document for the operational and functional aspects of pavement management. This guide will build upon the existing *AASHTO Pavement Management Guide* and include a broad range of topics that include (but are not limited to):

- **Asset Management Principles.** Asset management and pavement management procedures and benefits.
- **Referencing Systems.** Establishing and maintaining linear referencing system, merging several linear referencing methods into a single system, and addressing alignment and boundary changes.
- **Data Collection.** Type and extent of data; data collection procedures; data collection frequency; sampling rates; data needed for network-level, project-level, forensic investigations, and research; quality control/quality assurance procedures; equipment types and capabilities; equipment specifications; and equipment certification.
- **Data Storage and Integration.** Storage requirements, needed costs, maintenance issues related to storage, storage needs and formats to maximum integration, communication, data links, and technology/system availability.
- **Data Analysis.** Procedures and processes for analyzing data to meet agency needs.
- **Performance Modeling.** What level of detail is needed (both in data collection and model development), describe when model updates are necessary (e.g., due to improvements in measurement accuracy and changes in design principles, materials, or construction practices), quantify the impacts of measurement accuracy (e.g., windshield, automated, or semi-automated), how to conduct a sensitivity analysis on the model inputs and resulting performance prediction, catalog of available performance prediction models, and how to develop, calibrate/validate, implement, and maintain prediction models.
- **Treatment Selection.** Pavement preservation and rehabilitation treatments, benefits, and limitations.
- **Presenting and Communicating Results.** Discuss recommendations for presenting pavement management results and methodologies used for communicating pavement management data to stakeholders.
- **Supporting Agency Decisions.** Use of pavement management information to support planning activities (e.g., STIP and strategic planning), allocate resources, linking network and project-level treatment recommendations, identify organizational components that lead to successful pavement management, and provide recommendations for addressing barriers to the use of pavement management and improving agency business processes

### **Appraising Research in Second Language**

**Learning** Graeme Keith Porte, 2010. Designed for students of applied linguistics and second language acquisition on research training courses, practising language teachers, and those in training, this combination textbook/workbook is a set or recommended textbook on more than a hundred undergraduate and postgraduate courses worldwide. Now in its second edition, it remains the only book to provide specific advice and support to those wishing to learn a methodical approach to the critical analysis of a research paper. It seeks to answer a current need in the literature for a set of procedures that can be applied to the independent reading of quantitative research. Innovative features of the workbook include awareness-raising reading tasks and guided exercises to help develop and practise the critical skills required to appraise papers independently. Through informed and constructive appraisal of others' work, readers themselves are shown how to become more research literate, to discover new areas for investigation, and to organise and present their own work more effectively for publication and peer evaluation. This revised second edition sees a closer integration of the text and workbook, and a number of additions to the text itself, as well as further guided and unguided research appraisal exercises.

*Research Paper Writing Guide for Criminal Justice and Forensic Investigation Scholars* Michael Kane, 2015-06-10

This book contains the necessary information for college students to write successful research papers. Most research textbooks stop short at describing the step by step process of building and presenting research papers. This book does not. The textbook's design walks students through the logical process of building research papers and presenting research findings both orally and in writing. Topics include APA Writing Guide and Paper Requirements, The Purpose Statement, Citing in APA Style, What is a Scholarly Journal, The Literature Review, Critical Thinking, Analysis, Synthesis, and Evaluation, The Oral Presentation, Completing the Paper. The textbook serves as a primary textbook for courses involving research methods and paper writing or serves as an effective supplement to courses with major research paper components. The textbook contains several practical exercises and helpful tables as well.

Nutrition Research: Concepts and Applications Karen Eich Drummond, Alison Reyes, Natalie K. Cooke, Virginia C. Stage, 2022-05-23. Nutrition Research: Concepts and Applications, Second Edition, assists students in developing the skills necessary to become knowledgeable consumers of research, conduct and document research projects, and use research findings in the classroom and in supervised practice. The Second Edition makes research articles approachable and understandable so students can feel confident reading and interpreting not just primary research but also narrative and systematic reviews. In turn, this text also helps students understand and access practice guidelines to enable their participation in evidence-based nutrition and dietetics practice. Nutrition Research, Second Edition, provides numerous examples of concepts, ample practice opportunities using questions tied to actual studies, and occasions for step-by-step mastery of concepts. This valuable text starts with the basics and is comprehensive in its approach, making it ideal for undergraduate students as well as graduate students. Includes clear guidelines for many research activities such as evaluating articles and the various steps in the research process. Features a NEW chapter on disseminating research based on the intended audience, covering oral presentations, poster presentations, publications, and blogs. Highlights premier sources of evidence in nutrition research such as the Evidence Analysis Library and the Academy of Nutrition and Dietetics. Discusses the varied types of literature reviews, empowering students to synthesize the literature. Features a chapter devoted to obtaining funding for research and programs. 2023, 450 pages.
