Christie's distinctive literary style marked by sharp dialogue, vivid settings and a keen eye for detail invites readers into a world where nothing is as it seems and every seemingly mundane element could hold the key to solving the mystery. Agatha Christie, known as the Queen of Crime, was profoundly influenced by her own experiences and the social dynamics of her time, including the effects of World War I and the shifting roles of women in society. Her personal love for archeological digs and travel often shared with her husband fueled her imagination and fed into the rich locales and vibrant characters that populate her stories. This background not only enhanced her storytelling but also provided insights into the complexities of human relationships and moral dilemmas that underpin her narratives. For both seasoned Christie aficionados and newcomers alike, this collection is an essential exploration of the art of the British mystery. Animacy and Reference Mutsumi Yamamoto, 1999-01-01 The concept of animacy concerns the fundamental and cognitive question of the extent to which we recognize and express living things as saliently human-like or animal-like. In *Animacy and Reference* Mutsumi Yamamoto pursues two main objectives: First, to establish a conceptual framework of animacy, and secondly, to explain how the concept of animacy can be reflected in the use of referential expressions. Unlike previous studies on the subject focussing on grammatical manifestations, *Animacy and Reference* sheds light upon the conceptual properties of animacy itself and its reflection in referential processes. For the research of this study, the author focussed on languages that show completely different tendencies. As a result, English and Japanese parallel corpora are analysed, yielding salient observations and opening intriguing discussions.

The Voices of Suspense and Their Translation in Thrillers Susanne M. Caderra, Anita Pavic Pintaric, 2014-03-05 The volume aims to be a reference work for all researchers interested in the study of fictional dialogue and its translation in suspense novels and films, as well as in related genres. The volume also aims to determine the interplay between the creation of suspense and fictional dialogue. The particular interest in dialogue comes from the host of roles it plays in fiction. It helps create suspense and arouses a whole range of feelings in the reader or the audience related to the development of the plot. Fictional dialogue is the discursive method of evoking orality, conferring authenticity and credibility on a plot and giving fictional characters a voice. As a narrative strategy, dialogue is an important resource that enables the writer to shape the character's subjectivity. In thrillers, the character's voice is part of the process of creating suspense, an element of uncertainty, anxiety, and excitement, which is not exclusive to this genre. To clearly differentiate suspense from the tension created by other types of fiction, this volume aims to study the relationship between the characters' voices and the building of suspense and to describe the translation difficulties arising from this particular interdependence.

Gungwu is one of Asia's most important public intellectuals. He is best known for his explorations of Chinese history in the long view and for his writings on the Chinese diaspora. With *Home is Not Here*, the historian of grand themes turns to a single life history, his own. In this volume, Wang talks about his multicultural upbringing and life under British rule. He was born in Surabaya, Java, but his parents' orientation was always to China. Wang grew up in the plural, multi-ethnic town of Ipoh, Malaya, now Malaysia. He learned English in colonial schools and was taught the Confucian classics at home. After the end of WWII and Japanese occupation, he left for the National Central University in Nanjing to study alongside some of the finest of his generation of Chinese undergraduates. The victory of Mao Zedong's Communist Party interrupted his education, and he ends this volume with his return to Malaya. Wise and moving, this is a fascinating reflection on family identity and belonging and on the ability of the individual to find a place amid the historical currents that have shaped Asia and the world. **The Mystery**
