Poland And The Eurozone Studies In Economic Transition:

Poland and the Eurozone J. Hölscher, 2014-10-21 Poland is one of Europe's economic outperformers. The country's history and geography encourage it to be in favour of deeper European integration. This book aims to contribute to discussions on the future shape of EMU and the next steps ahead. **ECIE 2020 15th European Conference on Innovation and Entrepreneurship** Prof. Alessandro De Nisco, 2020-09-17 The European Conference on Innovation and Entrepreneurship has been running now for 15 years. This event has been held in Italy, Northern Ireland, France, Belgium, Portugal, and Finland to mention some of the countries who have hosted it. The conference is generally attended by participants from more than 40 countries and attracts an interesting combination of academic scholars, practitioners, and individuals who are engaged in various aspects of innovation and entrepreneurship teaching and research. The 16th European Conference on Innovation and Entrepreneurship will be hosted by Instituto Universitário de Lisboa (ISCTE) Portugal, and the Conference Chair will be Florinda Matos. *Entrepreneurship and Economic Transition in Central Europe* Jean-Paul Larçon, 2012-12-06 Since the fall of the Berlin Wall in 1989, Central European economies have been moving rapidly toward a common set of goals: political democracy, market-oriented economies, and integration into the European and international business community. For businesses, Central Europe offers a unique window of opportunity, and in particular, two comparative advantages: a low-cost, qualified workforce and stronger growth rates than mature Western European economies. This opportunity, seized by local entrepreneurs and foreign enterprises alike, is a significant competitive threat to companies not present in the region or who have not found alternative strategies for increased growth and competitiveness. This book addresses economic transitions in Central Europe and analyzes the problems of Central European integration in the European Union. **Poland's Protracted Transition** Kazimierz Poznański, 1996 This book, first published in 1997, offers an integrated study of institutional change in the Polish economy since 1971. **ECIC2014-Proceedings of the 6th European Conference on Intellectual Capital** Dagmar Cagaňová, Miloš Čambál, 2014-10-04 **The International Political Economy of Transition** Stuart Shields, 2014-10-03 This book explores the role played by state and multinationals in shaping transition. It uniquely integrates issues of globalisation and transnationalism into the analysis of postcommunism. This book will be of interest to students and researchers of transition, postcommunism, political economy, and European politics. **Inequalities During and After Transition in Central and Eastern Europe** Cristiano Perugini, Fabrizio Pompei, 2015-07-28 The book deals with the key aspects of social and economic inequalities developed during the transition of the formerly planned European economies. Particular emphasis is given to the latest years available in order to consider the effects of the global crisis started in 2008-2009. **Lessons from the Economic Transition** Salvatore Zecchini, 2013-12-01 An attentive reader embarking on this book might wonder what the economic transition to which the title refers might be. In this century, almost all countries have gone through periods of economic transition, but which period

of economic history can claim to embody the notion or to represent the era of the transition Definitely no country or group of countries has experienced anything comparable to the economic upheavals that the fall of communism has brought about in a large portion of the world in just three years 1989 to 1991 No other transition to date has prompted more interest and more studies among economists academics and policy makers than has the transformation of centrally planned economies into market based systems It is this transformation that has come to define the transition Early in the transformation process in November 1990 with the support of the Centre for Co operation with the Economies in Transition CCET I launched a conference to examine the challenges faced by these countries About six years have gone by and a new economic landscape has emerged in that part of the world The difficulties in transforming these economies have exceeded all expectations and economic performances have varied considerably across countries The time has come therefore to make a first evaluation of progress and problems with a view to extracting useful policy lessons to guide policy makers in successfully completing the transition in the near future
