

Argumentative Essay Outline

I. Introduction

- **Hook:** Did you know that over 50% of Americans believe in aliens?
- **Background:** UFO sightings and conspiracy theories have been around for decades.
- **Thesis:** Despite the lack of concrete evidence, extraterrestrial life is a real possibility that should be explored further.

II. Body Paragraphs

- **Paragraph 1:** The vastness of the universe and the possibility of other habitable planets make it unlikely that Earth is the only planet with intelligent life.
- **Paragraph 2:** Historical accounts and government documents suggest that there have been sightings of unidentified flying objects that cannot be explained.
- **Paragraph 3:** The search for extraterrestrial life is important for scientific discovery and could lead to advancements in technology and medicine.

III. Conclusion

- **Summary:** The possibility of extraterrestrial life is an exciting topic that should not be dismissed without further investigation.
- **Restate thesis:** While there may not be concrete evidence yet, the search for extraterrestrial life is important and should continue.
- **Call to action:** We should support further research and exploration to discover the truth about the existence of aliens.

Next is an outline of the academic and extracurricular prerequisites as well as the basic components of the application itself. The authors then address the factors that MD PhD students should consider when selecting schools to which to apply. Continuing to the main application, examples are provided of all the different essay types that MD PhD applicants will encounter along with comments on how to address the deliberately vague and abstract prompts while tailoring the responses to the combined degree program. Most uniquely included is a very detailed explanation of the many types of interviews that applicants will encounter and how to prepare for them by integrating extensive personal experience and first hand discussions with MD PhD program leaders. Lastly, there will be a discussion on how to cope with the year long timeline that constitutes this application process and provide guidance regarding properly responding to acceptances and waitlist offers. Written by a team of authors each experienced with the MD PhD application, this book aids the prospective applicant with navigating this challenging process.

Criminological Skills and Research for Beginners Laura Caulfield, Jane Hill, 2025-02-28

Criminological Skills and Research for Beginners Third Edition is a comprehensive and engaging guide to research methods in Criminology and the skills required for academic success. Written primarily for undergraduate students and novice researchers, this book has been designed as a lively and accessible guide to planning, conducting, and reporting research in the subject. It emphasises practical skills required in studying Criminology, the importance of criminological research, and places related methodology firmly in the context of students' broader study of the discipline. Before moving on to provide a detailed guide to the actual processes of research that students can return to at each stage of their study all the way through to their dissertation, this book presents an examination of the theoretical, political, and ethical debates in criminological research, a complete guide to planning criminological research, assisting student researchers in identifying their research questions, choosing their research methods, and critiquing the available literature. It includes guidance on the practicalities and processes of collecting data, contemporary examples and case studies, a discussion of the process of analysing data, and writing up research. New to the third edition is a brand new chapter on using online and social media data sources. This edition also includes new coverage of mixed methods approaches, preparing a research proposal, a spotlight on researcher well-being, and guidance on writing reflective essays. Including an extensive glossary and online support material with extra examples, exercises, and videos to further develop students' understanding, this book is essential reading for any undergraduate on a Criminological Research Methods or Research Skills course or for anyone in need of practical guidance on any or all of the various stages involved in conducting thorough and effective criminological research.
