

AP World History Unit 1 Review

East Asia

East Asia during the GLOBAL TAPESTRY period of 1200-1450 is dominated by the Mongol invasions. Depending on what you consider "CHINA", the Mongols arrive in 1206 (against the Western Xia). Normally, East Asia is the story of China and how much influence they exert in the region. However, for the GLOBAL TAPESTRY period, it's the story of the Fall and Rise of China along with how the other areas like Korea, Japan, and Vietnam handled these invasions.

Expansion of Communication Networks

- Improved commercial practices led to an increased volume of trade and expanded the geographical range of existing trade routes—including the Silk Roads, Trans-Saharan trade network, and Indian Ocean—promoting the growth of powerful new trading cities
- The growth of inter-regional trade in luxury goods was encouraged by innovations in previously existing transportation and commercial technologies, including the Caravanserai, forms of credit, and the development of money economies as well as the use of the compass, the astrolabe and larger ship designs.
- The economy of Song China flourished as a result of increased productive capacity, expanding trade networks, and innovations in agriculture and manufacturing.
- The expansion of empires—including the Mongols—facilitated Afro-Eurasian trade and communication as new people were drawn into their conquerors' economies and trade networks.
- In key places along important trade routes, merchants set up diasporic communities where they introduced their own cultural traditions into the indigenous cultures and, in turn, indigenous cultures influenced merchant cultures.
- As exchange networks intensified, an increasing number of travelers within Afro-Eurasia wrote about their travels.
- Increased cross-cultural interactions resulted in the diffusion of literary, artistic, and cultural traditions, as well as scientific and technological innovation.
 - Chinese cultural traditions continued, and they influenced neighboring regions.
 - Buddhism and its core beliefs continued to shape societies in Asia and included a variety of branches, schools, and practices.
 - There was continued diffusion of crops and pathogens, with epidemic diseases, including the bubonic plague, along trade routes.
