Some Developments in Research in Science and Mathematics in Sub-Saharan Africa Lorna Holtman, 2008 Much attention in late developing countries is given to providing access to studies which allow school leavers to enter science and technology related careers These programmes are driven by the belief that graduates will then substantially contribute to the developmental needs of their countries But is providing access to institutions enough Students in developing countries often come from school environments lacking in resources human physical and financial This book in a number of chapters reviews research related

to the crucial dimension of epistemological access to the disciplines of import which students need as much as institutional access in order to improve their chances of success A significant feature of this collection s research studies is that their empirical bases are highly localised covering areas such as research methods access curriculum instruction and assessment and the relevance of science and mathematics education in Zimbabwe Uganda Swaziland South Africa Namibia Malawi Ghana and Lesotho This volume provides invaluable insights and will be of relevance to researchers policy makers and lecturers interested in these research outcomes in Sub Saharan Africa It is the outcome of a doctoral research capacity development project the Graduate Studies in Science Mathematics and Technology Education GRASSMATE *Education in the New Zimbabwe* ,1988

Education and Development in Zimbabwe Edward Shizha,Michael T. Kariwo,2012-01-01

The book represents a contribution to policy formulation and design in an increasingly knowledge economy in Zimbabwe It challenges scholars to think about the role of education its funding and the egalitarian approach to widening access to education The nexus between education democracy and policy change is a complex one The book provides an illuminating account of the constantly evolving notions of national identity language and citizenship from the Zimbabwean experience The book discusses educational successes and challenges by examining the ideological effects of social political and economic considerations on Zimbabwe s colonial and postcolonial education Currently literature on current educational challenges in Zimbabwe is lacking and there is very little published material on these ideological effects on educational development in Zimbabwe This book is likely to be one of the first on the impact of social political and economic meltdown on education The book is targeted at local and international academics and scholars of history of education and comparative education scholars of international education and development undergraduate and graduate students and professors who are interested in educational development in Africa particularly Zimbabwe Notwithstanding the book is a valuable resource to policy makers educational administrators and researchers and the wider community Shizha and Kariwo s book is an important and illuminating addition on the effects of social political and economic trajectories on education and development in Zimbabwe It critically analyses the crucial specifics of the Zimbabwean situation by providing an in depth discourse on education at this historical juncture The book offers new insights that may be useful for an understanding of not only the Zimbabwean case but also education in other African countries Rosemary Gordon Senior Lecturer in Educational Foundations University of Zimbabwe Ranging in temporal scope from the colonial era and its elitist legacy through the golden era of populist universal elementary education to the disarray of contemporary socioeconomic crisis covering elementary through higher education and touching thematically on everything from the pernicious effects of social adjustment programmes through the local deprofessionalization of teaching this text provides a comprehensive wide ranging and yet carefully detailed account of education in Zimbabwe This engagingly written portrayal will prove illuminating not only to readers interested in Zimbabwe s education specifically but more widely to all who are interested in how the sociopolitical shapes education how ideology

policy international pressures economic factors and shifts in values collectively forge the historical and contemporary character of a country's education Handel Kashope Wright Professor of Education University of British Columbia

Mathematics Education Across Time and Place Thomas O'Shea, 2016-05-25 What is mathematics and what aspects of it should be taught in schools How and to whom should it be taught and how should its understanding be assessed These questions continue to drive curriculum development school organization teaching methods and research agendas No one today doubts that mathematics should be taught in our schools but this was not always so Mathematics Education Across Time and Place aims to help mathematics teachers teacher educators and anyone else interested in mathematics education appreciate the path this discipline has taken through the ages To understand the historical and social context for schools and the place of mathematics within them we meet a variety of mathematics educators from different times and places Though fictional their lives and social circumstances are based on historical documents and professional sources They range from ancient Greece to modern Zimbabwe from Persia to British Columbia from Islamic Baghdad to revolutionary Paris from Elizabethan England to twentieth century New York and from the rural one room schools of North America to the modern comprehensive secondary school By sharing the teachers lives we come to understand how they developed their love for teaching mathematics and how their work fit into the larger social context of their time **Developing Science,**

Mathematics, and ICT Education in Sub-Saharan Africa Wout Ottevanger, J. J. H. van den Akker, Leo de Feiter, 2007-01-01 Developing Science Mathematics and ICT SMICT in Secondary Education is based on country studies from ten Sub Saharan African countries Botswana Burkina Faso Ghana Namibia Nigeria Senegal South Africa Uganda Tanzania and Zimbabwe and a literature review It reveals a number of huge challenges in SMICT education in sub Saharan Africa poorly resourced schools large classes a curriculum hardly relevant to the daily lives of students a lack of qualified teachers and inadequate teacher education programs Through examining country case studies this paper discusses the lessons for improvement of SMICT in secondary education in Africa Report of the Presidential Commission of Inquiry Into Education and Training Zimbabwe. Presidential Commission on Education and Training in Zimbabwe, 1999 *STEM Education in Poverty* Brantina Chirinda, Gladys Sunzuma, Perkins Muredzi, 2025-07-15 This book is about Science Technology Engineering and Mathematics STEM education in poverty and the lessons we learn from Zimbabwe The world is driving towards the fourth Industrial Revolution 4IR where economic growth has been attributed to STEM education STEM education is vital in this era where both developed and developing countries are undergo rapid changes Globally STEM education has been practised differently in schools and universities University programs new school curricula instructional methods extracurricular programs and professional development programs for in service teachers have been created to cater to STEM subjects STEM education is envisioned to produce critical thinkers inventors creators problem solvers innovators and professionals who will solve the world's ever changing challenges including inequity food insecurity climate change

inequality and poverty STEM is essential to modern education Zimbabwe has faced significant economic challenges but has made remarkable strides in STEM education By examining the successes and challenges of STEM education in Zimbabwe we can learn valuable lessons about improving STEM education in underserved communities This book contributes to the international debate surrounding the optimal STEM education for students in underserved schools It incorporates detailed accounts of STEM education in Zimbabwe schools shedding light on the challenges students and educators face in impoverished areas In Zimbabwe STEM education faces significant challenges such as materials and facilities pedagogy policy reform access and relevance Some of the main issues highlighted in this book are the need for more resources including funding teaching materials and adequate laboratories Effective STEM pedagogy is hampered by an education system that emphasises the curriculum and teacher centred focus instead of focusing on how students can be taught or learn Research has shown that in Zimbabwe STEM teachers must apply inventive pedagogies and suitable learner centred STEM teaching approaches As a result there is a need for more STEM related programs and courses in schools and universities to improve the opportunities for students to pursue careers in these fields Another challenge is the need for more awareness about the opportunities and importance of STEM education and interest in STEM subjects among students which can be attributed to a lack of exposure and understanding of the relevance and importance of these fields in today's world While lack of resources and other challenges hinder effectiveness opportunity lies in promising pathways of policy and practice In Zimbabwe there is a varying degree of success in the implemented competence based curriculum which emphasises inquiry based learning and STEM education Finally there is a need for early exposure to STEM based career opportunities and for more collaboration between the government private sector and educational institutions to address these challenges and promote STEM education in Zimbabwe This book uses Zimbabwe as an example to explore STEM education in poverty By examining the successes and challenges of STEM education in Zimbabwe this book offers valuable insights into how STEM education can be integrated into the curriculum in countries with developing and emerging economies This book is an essential resource for anyone interested in improving STEM education in underserved communities
