now refer for any explanation concerning my medium ship During that interval of time the ranks of the believers in Spiritualism have steadily increased in numbers its phenomena presenting an array of well established facts have challenged the investigation of some of the first scientific minds of the age and its philosophy has done more towards liberating the human mind from the thralldom of old superstitions and creeds than any other form of faith which has arisen for centuries But as yet it has not secured that prestige of popularity and respectability which the combined influence of age wealth and organized action ever afforded Consequently those who are named by its name must be prepared to meet the anathemas of religious bigots the lofty scorn of those who are wise in their own conceit the scurrilous attacks of those who would divert attention from their own infamy and the petty irritations of a numerous pack who follow at the heels of every new movement and ever distinguish themselves by noise rather than by knowledge About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books Find more at www.forgottenbooks.com This book is a reproduction of an important historical work Forgotten Books uses state of the art technology to digitally reconstruct the work preserving the original format whilst repairing imperfections present in the aged copy In rare cases an imperfection in the original such as a blemish or missing page may be replicated in our edition We do however repair the vast majority of imperfections successfully any imperfections that remain are intentionally left to preserve the state of such historical works

Poetry and the Idea of Progress, 1760-90 John Regan, 2018-04-10 Poetry and the Idea of Progress 1760 1790 explores under examined relationships between poetry and historiography in the eighteenth century deepening our understanding of the relationship between poetry and ideas of progress with sustained attention to aesthetic historical antiquarian and prosodic texts from the period Its central contention is that the historians and theorists of the time did not merely instrumentalize verse in the construction of narratives of human progress but that the aesthetics of verse had a kind of agency it determined the character of historical knowledge of the period With numerous examples from poems and writing on poetics Poetry and the Idea of Progress 1760 1790 shows how the poetic line became a site at which one could make assertions about human development even as one experienced the expressive effects of metred language
