A Common Good Approach to Development Mathias Nebel, Oscar Garza-Vázquez, Clemens Sedmak, 2022-04-26 This edited collection proposes a common good approach to development theory and practice Rather than focusing on the outcomes or conditions of development the contributors concentrate on the quality of development processes suggesting that a common good dynamic is key in order to trigger development Resulting from more than three years of research by an international group of over fifty scholars the volume advocates for a modern understanding of the common good rather than a theological or metaphysical good in societies by emphasising the social practice of commoning at its core It suggests that the dynamic equilibrium of common goods in a society should be at the centre of development efforts For this purpose it develops a matrix of common good dynamics accounting for how institutions social norms and common practices interconnect by identifying five key drivers not only of development but human development agency governance justice stability humanity Based on this matrix the contributors suggest a possible metric for measuring the quality of these dynamics The last section of the book highlights the possibilities enabled by this approach through a series of case studies The concept of the common good has recently enjoyed a revival and inspired practitioners keen to look beyond the shortcomings of political and economic liberalism This book builds on those efforts to think beyond the agenda of twentieth century development policies and will be of interest to those working in the fields of development economics sociology philosophy and political science

The Political Philosophy of Pierre Manent Joseph R. Wood, 2024-08-30 This book presents and evaluates the understanding of political form in the work of Pierre Manent. The study of political form is Manent's central philosophical task. He is interested in the nature of man in the action that makes us human and thus in politics and political action as privileged windows into human nature and what it is to be human. Manent places himself in the classical political tradition with its foundations in human nature and in a politics that accords with nature. He also situates himself within a triangle of faith, philosophy and politics, all of which interest him as part of the reality of things, even as he avoids an exclusive commitment to any one vertex in his investigation. The book first examines the major influences on Manent: the overarching questions that guide his work on political form, the theologico-political question and the question of the modern difference with the ancient view of man and politics, and his two intertwined paths of inquiry into political events and political thought. Manent describes political forms as the modes of human association that no science has taken as its specific object. City, empire, Church, national monarchy or nation state and modern state are the principal forms that he examines. The book discusses Manent's thinking on each form in turn, together with the tensions that propel the changes or motion in political form that Manent sees as driving and revealing the course of European political development. Using the work of Alasdair MacIntyre, Russell Hittinger, Étienne Gilson, Robert Sokolowski and Francis Slade, the book evaluates Manent's insights into the modern state and political condition, which he judges to be exhausted, as well as his call for the preservation of the form of the nation marked by Christianity.

The Search for Political Community Paul Lichterman, 1996-09-19 This book challenges the myth that Americans' emphasis on personal fulfilment necessarily weakens commitment to the common good. Drawing on extensive participant observation with a variety of environmentalist groups, Paul Lichterman argues that individualism sometimes enhances public political commitment and that a shared respect for individual inspiration enables activists with diverse political backgrounds to work together. This personalised culture of commitment has sustained activists working long term for social change. The book contrasts personalised politics in mainly white environmental groups with a more traditional community-centred culture of commitment in an African American group. The untraditional personalised politics of many recent social movements invites us to rethink common understandings of commitment, community and individualism in a post-traditional world.

The Limits of a Divided Nation with Perspectives from the Bible Michael Ufok Udoekpo, 2020-01-31 Michael Udoekpo's work brilliantly and pastorally discusses the issues of conflict, friction and disunity in the world and in Nigeria, in particular from biblical, historical and sociocultural perspectives. These issues, he stresses, are endemic in various fabrics of the Nigerian society, traceable to the family as the foundation of any given society. They are also found in religious, political and media groups. Contributing factors, Udoekpo argues, are materialism, infidelity, relativism and

fundamentalism Others are ethnocentrism anthropocentrism ignorance bribery and corruption with other forms of injustices Drawing from the Bible Udoekpo proposes prayer proper education truth telling restoration of family values interreligious and cultural dialogue ecumenism enforcement of rule of law faith and absolute trust in God as antidotes to conflict violence friction and disunity in our contemporary society Encyclopedia of Governance Mark Bevir,2007

Politics for a Pilgrim Church Thomas J. Bushlack,2015 Presents an innovative constructive alternative to Christian involvement in the culture wars Church leaders and scholars have long wrestled with what should provide a guiding vision for Christian engagement in culture and politics In this book Thomas Bushlack argues that a retrieval of Thomas Aquinas s understanding of civic virtue provides important resources for guiding this engagement today Bushlack suggests that Aquinas s vision of the pilgrim church provides a fitting model for seeking the earthly common good of the political community and he notes the features of a Thomistic account of justice and civic virtue that remain particularly salient for the twenty first century The book concludes with suggestions for cultivating a Christian rhetoric of the common good as an alternative to the predominant forms of discourse fostered within the culture wars that have been so divisive **A**

Human Dignity and Liberal Politics Patrick Riordan,2023 This book pursues two goals in the context of resurgence of interest in the common good as a topic in political philosophy and Christian ethics The first goal is the clarification of the notion of common good elaborating it through the three lenses of Aristotelian practical philosophy twentieth century Catholic Social Thought and political liberalism The second goal is to make the case that the espousal of the common good does not entail a rejection of liberalism but that a commitment to liberal politics is compatible with faithful adherence to the Catholic tradition The first goal is warranted by the fact that many authors such as Michael Sandel who invoke the common good do not explain the concept The second is necessitated by the tendency among many contemporary Catholic authors to polarize

liberalism and the common good presenting readers with a stark choice Instead of exacerbating divisions this book explores what is common even where there is difference and division The Second Vatican Council's *Gaudium et spes* invites all to a dialogue about the common good as the set of economic political legal and cultural conditions for the flourishing of human beings whether as individuals or as communities The challenge of dialogue is taken up through the three lenses identifying a heuristic concept of the common good along with two criteria for its application First no systematic exclusion of any person or group and second no systematic exclusion of any genuine dimension of the human good These criteria have their counterparts in the principles of solidarity and subsidiarity They prove their usefulness in discussion of democracy human rights and religious liberty accepting a political liberalism that can facilitate the collaboration in political life by exponents of many different worldviews and religious doctrines
