ICEL2013-Proceedings of the 8th International Conference on e-Learning Eunice Ivala, 2013-06-27 Handbook of Open Universities Around the World Sanjaya Mishra, Santosh Panda, 2013-06-27 The Handbook of Open Universities Around the World is the first collection to provide a comprehensive and critical overview of open universities internationally. Over 80 open universities have been established across five continents to provide a distance orientated class inclusive and high quality education for learners left behind by existing formal systems for higher and continuing education and lifelong learning. This mission has been continually reshaped by major developments in open education learning technologies and online social networking as well as by the evolution of specific concerns such as the massification of education, employability, financial trends, artificial intelligence and development agendas on the regional, national and global levels. This landmark volume analyzes and reflects on the planning, organization, management, pedagogic, skilling and employability and accreditation dimensions of 47 open universities in relation to their national and institutional contexts, the internationalization of education and the integration of advanced learning technologies. Featuring contributions by internationally recognized scholars, practitioners and educational administrators, this authoritative resource provides insights into the business model, finances, operations, instructional systems, enrollment patterns, learner supports, quality assurance, professional development and more of today's open universities. Through historical trajectories, institutional profiles, case studies, lessons learned and best practices, this book provides rich analytical perspectives on the status and challenges of single mode distance learning universities as an educational phenomenon while unpacking the premise of openness itself. This Handbook is primarily written for planners, managers, administrators, instructional designers and teaching faculty at single mode distance teaching universities who are seeking to sustain their institutions in a period of rapid change, government policymakers, training organizations, technology providers and education think tanks who are in need of authentic and research based information on technology enabled learning modeled by open universities around the world and graduate students, teaching faculty and scholars who are affiliated with online and distance education learning design and technology, higher education planning and management, adult education and lifelong learning and education policy and future studies. GUIDE towards the future Laura Ricci CONTRIBUTORS GENERAL INDICATIONS FOR THE AUTHORS The Mobile Learning Voyage - From Small Ripples to Massive Open Waters Tom H. Brown, Herman J. van der Merwe, 2015-10-14 This book constitutes the proceedings of the 14th International Conference on Mobile and Contextual Learning mLearn 2015 held in a cruise ship leaving from and arriving to Venice Italy in October 2015 The 22 revised full papers and 6 short papers presented were carefully reviewed and selected from 81 submissions The papers deal with the topics related to the theme of the conference The mobile learning voyage from small ripples to massive open waters The conference theme paid tribute to the developments that brought mobile learning from its infancy steps in the early 2000s to maturity in 2015 while simultaneously paving the way for the broad and open waters ahead with new developments and progress in mobile learning and emerging ambient technologies **Assessing Academic Literacy in a Multilingual Society** Albert Weideman, John Read, Theo du Plessis, 2020-11-02 South African universities face major challenges in meeting the needs of their students in the area of academic language and literacy The dominant medium of instruction in the universities is English and to a much lesser extent Afrikaans but only a minority of the national population are native speakers of these languages Nine other languages can be media of instruction in schools which makes the transition to tertiary education difficult enough in itself for students from these schools The focus of this book is on procedures for assessing the academic language and literacy levels and needs of students not in order to exclude students from higher education but rather to identify those who would benefit from further development of their ability in order to undertake their degree studies successfully The volume also aims to bring the innovative solutions designed by South African educators to a wider international audience *Global Perspectives on Gender and Sexuality in Education* Elinor L. Brown, Guichun Zong, 2017-05-01 International Advances in Education Global Initiatives for Equity and Social Justice is an international research monograph series that contributes to the body of inclusive educational policies and practices focused on empowering society's most vulnerable groups raising the ethical consciousness of those in positions of authority and encouraging all to take up the mantle of global equity in educational opportunity economic freedom and human dignity Each themed volume in this series draws on the research and innovative practices of investigators academics educators politicians administrators and community organizers around the globe This volume consists of three sections each centered on an aspect of gender equity in the context of education The chapters are drawn from a wide range of countries including Australia China Gambia India Italy Kenya Kyrgyzstan Laos Slovenia Swaziland Grenada Jamaica Trinidad Tobago The United States and Turkey addressing issues of gender equity citizenship education egalitarianism in sexual orientation and strategies to combat human trafficking The 15 chapters document both the progress and challenges facing those who strive for gender equity in access to education the portrayal of women in curricula and the acceptance of diverse sexual orientations within differing country contexts and provide an overview of promising policies practices and replicable successful programs Educational Assessment in a Time of Reform Coert

Loock, Vanessa Scherman, 2019-11-20 Educational Assessment in a Time of Reform provides background information on large scale examination systems more generally and the South African examination specifically It traces the reforms in the education system of South Africa since 1994 and provides a description of the advances in modern test theory that could be considered for future standard setting endeavours At the heart of the book is the debate on whether the current standard of education in Africa is good enough If not then how can it be improved The aim of this book is to provide a point of departure for discussions on standard setting quality assurance equating of examinations and assessment approaches From this point of departure recommendations for practices in general and the exit level Grade 12 examination results in particular can be made This book is ideal reading for principals teachers academics and researchers in the fields of educational assessment measurement and evaluation **ICEL 2017 - Proceedings of the 12th International Conference on e-Learning** Laurie

O. Campbell, Richard Hartshorn, 2017 **Quality Assessment and Enhancement in Higher Education in Africa** Peter Neema-Abooki, 2022-12-16 This book explores quality assessment and enhancement in higher education in Africa to illustrate the need to develop quality practices in measuring effective education and continually search for permanent improvement The book demonstrates that technological and socio economic trends innovations and inventions of the twenty first century demand that additional attention be placed upon education for national regional and international development Since conventions for quality assessment and enhancement need to be defined and systematic structures constructed to develop quality practices the book shows how quality in higher education within Africa has been established and advanced to provide a framework for monitoring auditing and reviewing assessment and enhancement Though the book considers African complexities and diversity it incorporates global trends and utilises an international focus that enables readers to devise appropriate strategies for developing and enhancing quality and standards in higher education in both continental Africa and beyond Illustrating why quality assessment and enhancement should be embraced in all aspects including inputs processes outputs and outcomes in educational settings globally this book will be of interest to policymakers and scholars in the fields of Higher Education Quality and Global Studies African Education African Studies and Management and Administration Leadership and Professional Development Studies **Human-Computer Interaction: Applications and Services**

for Document Delivery gives you the solid data you need to get the most out of Ariel Higher Education as a Tool for Progress in South Africa D. D. Tewari, 2024-10-08 Education is a tool used to elevate citizens from poverty and unemployment and thus contributes to nation building and the promotion of a knowledge based society in the information age South Africa can take a cue from Asia and its rapid industrialization in the 1970s and its subsequent progressive education The book is an illustrious historical and lucid discussion and commentary on the changing nature of education in the South African Higher education sector in particular It covers a canvass of issues on higher education and the knowledge industry in the South African context and possible challenges that lie ahead The twin challenges of low enrollment and high dropout rates in South African universities especially at first year level are alarming and robbing the country of its economic potential It is the need of the hour to collaborate on an international level to spur knowledge creation and economic growth which South Africa so desperately needs The book is a welcome addition for policy makers and research scholars in higher education *Through A Glass Darkly* Margaret Thornton, 2015-11-08 This collection of essays arose from a workshop held in Canberra in 2013 under the auspices of the Academy of Social Sciences in Australia to consider the impact of the encroachment of the market on public universities While the UK tripled fees in 2013 and determined that the teaching of the social sciences and the humanities would no longer be publicly funded it was feared that Australia would go further and deregulate fees altogether In the best tradition of the social sciences the contributors have assumed the role of critic and conscience of society to present penetrating analyses of the ramifications of the corporatisation of the university as neoliberalism continues to occupy the ascendant position in the political firmament The dramatis personae in these analyses are students academics managers and political mandarins with the gendered character of corporatisation an important sub theme *Negotiating Boundaries in Multicultural Societies* Dina Mansour, Andrew Milne, 2019-01-04 This volume was first published by Inter Disciplinary Press in 2014 This volume entitled *Negotiating Boundaries in Multicultural Societies* is divided into two main sections The Politics of Belonging and The Politics of Exclusion Both sections serve to explore the concepts of belonging and exclusion from an empirical political perspective Based on practical case studies each chapter sheds light on empirical aspects of the challenges of integration identity and citizenship within multicultural societies In addition to the challenges faced by particular social groups regarding their cultural and social integration that very much affects their sense of belonging and their overall perception of their own identity institutionalized political exclusion is still condoned if not practiced by states worldwide When found in a society of multiple identities failed integration often results in divided culturalism and hence nations This volume explores this predicament while referring to a number of country case studies **Political Science in South Africa** Peter Vale, Pieter Fourie, 2016-01-13 In 2013 and in 2014 respectively the South African Association of Political Studies SAAPS and Politikon the South African Journal of Political Studies celebrate their 40th anniversary Also in April 2014 South Africa celebrates twenty years since the advent of the post Apartheid democracy and the birth of the rainbow nation

This book provides a timely account of the birth and evolution of South African politics over the past four decades but also of the study of Political Science and International Relations in this country. Fourteen political scientists contribute chapters to this volume situating the study of politics within its global context and recounting the development of politics as a field of study at South African universities. The fourteen contributions evaluate the state of the disciplines and suggest conclusions that are surprising and in many instances unsettling not only with regards to what and how politics is taught but also how its study has variously gained and lost pertinence for South Africans understanding of their own polity as well as its place in the world. The implications are uncomfortable and pose interesting challenges for South African scholarship pedagogy and national self reflection. This book was published as a special issue of *Politikon*.

Evidence-Based Faculty Development Through the Scholarship of Teaching and Learning (SoTL) Plews, Rachel C., Amos, Michelle L., 2020-01-10.
