

LabVIEW Module 2: Computer Components 7.5.2020

Identify Motherboard Components and Their Functions

In this lab, you will demonstrate the ability to identify and describe the different types of motherboard and CPU components in a computer.

Required Setup and Tools

Types of motherboard and CPU are described in the lab procedure. However, students who need more of a starting computer should be provided a video (e.g., <https://www.youtube.com/watch?v=8t3333333333>) about the system prior to the lab. The system should be configured such that students will be able to identify the components in the system by name.

Use the Lab 2 spreadsheet to capture your responses.

Procedure**Task 1: Examining the Motherboard****Procedure**

1. Examine the following motherboard. Then, examining the image will lead to the rest of the lab. After the lab, the steps in the next lab will be used to identify the components in the system. <https://www.youtube.com/watch?v=8t3333333333>
