

- 1 BUILT-IN SPEAKER**—For handsfree conversation, background music, group listening, and paging announcements. This high-quality speaker saves your neck and ear during long calls without distorting the conversation.
- 2 RELEASE BUTTON**—You don't have to lift and replace the handset to hang up after a handsfree call. Just press the release button.
- 3 FEATURE BUTTON**—Use this button to program or use Norstar features. A quick-reference card under the handset lists the most frequently used Norstar features and their corresponding codes.
- 4 HOLD**—Put a caller on hold with the touch of a button. Tones or music on hold assures callers they have not been disconnected. And to remind you of that important customer holding, external calls on hold play periodic reminder tones over your set speaker. With Exclusive Hold (a simple feature code), a call can only be retrieved at the set where it was placed on hold, so no one else can inadvertently pick up the call.
- 5 VOLUME CONTROL BAR**—Easily and quickly adjust the ringer, handset, headset, or speaker volume whenever you need to. If you have to step away from your desk when you're expecting an important call, just tap the volume control bar to raise the ringing volume. And when your soft-spoken customer calls, don't risk misunderstandings, just turn up the volume of your handset or handsfree speaker using the same control bar.
- 6 MEMORY BUTTONS**—No more searching the Rolodex for a customer's phone number. Program the numbers you frequently use on these buttons for one-touch dialing. Or program memory buttons for quick access to system features or network services. The choice is yours—customize your phone for the way you work.
- 7 LCD WINDOW**—The LCD Window walks you through Norstar features step-by-step, so it's a snap to transfer calls, make conference calls, respond to messages and more. And with Calling Line Identification (CLID)*, your Norstar telephone's LCD Window shows you who's calling before you answer. You'll be better prepared to respond to your

customers and you'll know when to let a needless interruption roll over to voice mail. And because Norstar's advanced applications, like Voice Mail, Fax Messaging, and Dial-by-Name, are integrated with the LCD Window, you won't spend hours studying instruction manuals. The LCD Window takes the guesswork out of communications.

- 8 CALL LOG**—When you're out of the office or away from your desk, you can miss important phone calls. Norstar Call Log shows you a record of incoming call information through CLID, including date and time of calls, and the number of repeated attempts, right on your Norstar telephone's LCD Window.
- 9 SOFTKEYS**—To make communications even easier, Norstar's M7310 and M7324 provide 3 softkeys integrated with the LCD Window. While the Window tells you your status and options, the softkeys let you select an appropriate action with one touch. No commands to remember. Just make your choice and press the softkey.
- 10 PROGRAMMABLE BUTTONS**—Each phone is easily customized to fit the individual user's needs. Buttons can be programmed as lines, intercoms, autodial numbers, or features. If you frequently meet with customers in your office, program a button for "Do Not Disturb," and eliminate telephone interruptions with one touch. Or for quick dialing, program the numbers you frequently call on these buttons.
- 11 INTERCOM**—You don't want to tie up an outside line just to call someone down the hall. Using the Intercom key leaves lines free, so your customers can reach you.
- 12 HANDSFREE/MUTE**—With one-touch handsfree operation, you can answer or make calls without picking up the handset. Touch the Handsfree/Mute button a second time and listen without being heard. A flashing LCD indicator reminds you the phone is muted. (Not available on M7300.)

OTHER POPULAR FEATURES—Selective ringing tones, discriminating ringing, automatic set relocation, bilingual capability, wall-mount capability, and built-in headset jack.
