Nsfas For 2015 At Tut

Rekgotsofetse Chikane

Nsfas For 2015 At Tut:

Breaking a Rainbow, Building a Nation Rekgotsofetse Chikane, 2018-10-01 Breaking a Rainbow Building a Nation is a first hand account of the university protests that gripped South Africa between 2015 and 2017 widely better known as the FeesMustFall Chikane outlines the nature of student politics in the country before during and after the emergence of MustFall politics exploring the political dynamics that informed and drove the student protests and the effect that these MustFall movements have had on the nature of youth politics in the country Chikane looks at how the current nature of youth politics is different from previous youth upheavals that have defined South Africa specifically due to the fact that the protests were being led by so called coconuts who are part of the black elite Breaking a Rainbow Building a Nation poses the provocative question can coconuts be trusted with the revolution

Shadow Libraries Joe Karaganis, 2018-05-04 How students get the materials they need as opportunities for higher education expand but funding shrinks From the top down Shadow Libraries explores the institutions that shape the provision of educational materials from the formal sector of universities and publishers to the broadly informal ones organized by faculty copy shops student unions and students themselves It looks at the history of policy battles over access to education in the post World War II era and at the narrower versions that have played out in relation to research and textbooks from library policies to book subsidies to more recently the several open publication models that have emerged in the higher education sector From the bottom up Shadow Libraries explores how simply students get the materials they need It maps the ubiquitous practice of photocopying and what are in many cases the more marginal ones of buying books visiting libraries and downloading from unauthorized sources It looks at the informal networks that emerge in many contexts to share materials from face to face student networks to Facebook groups and at the processes that lead to the consolidation of some of those efforts into more organized archives that circulate offline and sometimes online the shadow libraries of the title If Alexandra Elbakyan's Sci Hub is the largest of these efforts to date the more characteristic part of her story is the prologue the personal struggle to participate in global scientific and educational communities and the recourse to a wide array of ad hoc strategies and networks when formal authorized means are lacking If Elbakyan's story has struck a chord it is in part because it brings this contradiction in the academic project into sharp relief universalist in principle and unequal in practice Shadow Libraries is a study of that tension in the digital era

Sustaining Higher Education Through Resource Allocation, Learning Design Models, and Academic Development Makua, Manyane, Akinlolu, Mariam, 2023-07-24 Conversations debates and policies toward higher education remain in an uncritical mode of normality on issues such as inclusion exclusion and equity In addition the onset of the COVID 19 pandemic has starkly highlighted the fragility of the higher education system and has raised salient questions related to inclusivity and quality in all aspects

Sustaining Higher Education Through Resource Allocation Learning Design Models and Academic Development fills a gap in the existing literature by introducing current practices and procedures in the face of the new normal as they affect the higher education sector. The book also addresses the various issues of current interest in the higher education sector relative to teaching and learning, student support, staff development, curriculum development, educational technologies, learning design models, and resource allocation. Covering key topics such as student engagement, assessment practices, and academic development, this premier reference source is ideal for administrators, researchers, scholars, academicians, practitioners, instructors, and students.

Higher Education, Community Engagement and Entrepreneurship in Southern Africa I. G. Govender, 2021-02-24

This volume explores the pressing issues of entrepreneurship education and development in Southern Africa. It discusses the various roles of higher education institutions in enhancing entrepreneurship in localised communities and provides a systematic solution for improving the Southern African economy by realising the importance of empowering the youth with entrepreneurial skills. In addition, successful development requires effective policies and contemporary approaches to both community engagement and entrepreneurship management. The book uses different Southern African case studies to discuss the various issues and innovations in entrepreneurship in the country.

Global

Science's Cooperation Opportunities, Challenges, and Good Practices Moussaoui, Mohamed, 2023-07-24

Science diplomacy gives possibilities for international diplomacy and science policy to collaborate to more directly address social and global challenges such as successful diplomatic engagement, international scientific coordination, and policy coherence in response to the COVID 19 pandemic. However, most academic scientists lack policy process training, networking opportunities with science policymakers, and the capacity to use their expertise in the field to advance policy or diplomacy. These barriers limit scientists' research impact, inhibit science policy relations, reduce science recommendations, and restrict university engagement in national and international contexts. The origins of science diplomacy have yet to be closely examined, and its current format does not give a clear understanding of how it concretely translates into science policy actions. *Global Science's Cooperation Opportunities, Challenges, and Good Practices* provides a comprehensive overview of science diplomacy and its evolution in history and analyzes the ways in which politics, science, and diplomacy intertwine. The book also provides a critical review of science diplomacy by exposing its limitations in addressing global challenges and by reflecting on the specific questions relating to the adaptation of the science diplomacy concept to the context of the Global South. Covering key topics such as climate change, foreign policy, and energy consumption, this premier reference source is ideal for policymakers, government officials, politicians, industry professionals, researchers, academicians, scholars, practitioners, instructors, and students.

Apartheid and Fragmented Protest in Contemporary Southern Africa Cuthbeth Tagwirei, 2025-09-29

Apartheid and Fragmented Protest in Contemporary Southern Africa examines protest movements through the lens of Apartheid Studies, the first general theory of apartheid which explores how oppression, harm, injustice, poverty, loss, and

inequality persist The book argues that apartheid which breaks the world of the oppressed into fragments fomenting diverse experiences of oppression among its victims frames the nature and course of protests by making them subject to its fragmentation Protest is thus redefined as good neighbourly and demoted on account of its symbiotic relationship to apartheid It is observed that the proliferation of protests does not preclude the persistence of apartheid Rather protest and apartheid are seen to be compatible By examining protest hashtags on X from South Africa and Zimbabwe the book explores and identifies the forms relations meanings trajectories and effects protests take evoke and embody as fragments subsisting in a fractured apartheid universe It demonstrates how and why life goes on amidst protest sheds light on the contradictions paradoxes and complexities that characterise protest movements and invites conversations around protest as a paradigm in the context of apartheid The book will be of interest to researchers across the fields of social movements protests sociology African Studies and communication and media studies

7th International Conference on Tourism Research Prof Rishi Balkaran, Dr Chris Hattingh, 2024-03-18 These proceedings represent the work of contributors to the 7th International Conference on Tourism Research ICTR 2024 hosted by the Centre for Tourism Research in Africa at the Cape Town Hotel School Cape Peninsula University of Technology South Africa on 18 19 March 2024 The Conference Chair is Prof Rishi Balkaran and the Programme Chair is Dr Chris Hattingh both from Cape Peninsula University of Technology CPUT South Africa ICTR is a well established event on the academic research calendar and now in its 7th year the key aim remains the opportunity for participants to share ideas and meet the people who hold them The scope of papers will ensure an interesting two days The subjects covered illustrate the wide range of topics that fall into this important and ever growing area of research Today more than ever there is a need for research and scientific guidance as the tourist sector struggles to cope with the consequences of the Covid 19 pandemic inflation socio political turbulences climate change and disaster risk

Serving Higher Purposes Ihron Rensburg, 2020-11-05 Universities of the 21st century and beyond must be about teaching learning research excellence creativity and innovation as much as they must be about enabling the destiny of students communities and nations to realize their potential UJ succeeded in her vision and responsibilities to transform the divisions prejudices and limitations that often restrain the advancement of society The story of UJ's transition to an inclusive diverse dynamic bold and purposeful institution of learning demands to be read by everyone South African African and beyond It is a story of how to be an object rather than the subject of history while dynamically shaping our shared futures laying a solid foundation for future generations to be advocates and architects for social change and cohesion It is a story of courageous and visionary leadership The book offers our nation profound lessons in leadership that should enrich all our efforts to transform institutions in a sustainable way to play a meaningful role in building ONE NATION DR WENDY LUHABE Economic Activist Social Entrepreneur First Chancellor of the University of Johannesburg Fees Must Fall Susan Booysen, 2016-10-01 This book explores the student discontent a year after the start of the 2015 South African FeesMustFall

revolt FeesMustFall the student revolt that began in October 2015 was an uprising against lack of access to and financial exclusion from higher education in South Africa More broadly it radically questioned the socio political dispensation resulting from the 1994 social pact between big business the ruling elite and the liberation movement The 2015 revolt links to national and international youth struggles of the recent past and is informed by black consciousness politics and social movements of the international left Yet its objectives are more complex than those of earlier struggles The student movement has challenged the hierarchical top down leadership system of university management and it s double speak of professing to act in workers and students interests yet entrenching a regressive system for control and governance University managements while on one level amenable to change have also co opted students into their ranks to create co responsibility for the highly bureaucratised university financial aid that stands in the way of their social revolution This book maps the contours of student discontent a year after the start of the FeesMustFall revolt Student voices dissect colonialism improper compromises by the founders of democratic South Africa feminism worker rights and meaningful education In depth assessments by prominent scholars reflect on the complexities of student activism its impact on national and university governance and offer provocative analyses of the power of the revolt

Factors Influence Students' Resistance to the NSFAS Online Funding Application Process at the Tshwane University of Technology Seipati Peggy Mochiza, 2016 The purpose of this study is to determine which factors influence the formation of intention to adopt the NSFAS online financial application system at Tshwane University of Technology TUT and to identify barriers to adoption experienced by the NSFAS applicants at TUT To achieve these objectives the study utilised the Technology Acceptance Model TAM and the Ram Sheth 1989 concept of barriers to model TUT NSFAS adoption patterns To test this conceptual framework a descriptive quantitative research survey approach was conducted Data was collected through self completion structured questionnaires from a sample of 644 TUT students in September 2015 SPSS Version 23 and STATA 12 were utilised to conduct descriptive and multivariate analyses including correlations and structural equation modelling respectively
