**Insights in Emerging or Re-emerging Zoonoses** Javier Caballero Gómez, Mustafa Altindis, Santiago Mirazo, Barbara Moroni, 2024-07-31 More than sixty percent of emerging infectious diseases that affect humans are caused by zoonotic pathogens. Over the last two centuries there have been many examples of zoonotic microorganisms that have caused important epidemics or pandemics around the world. However, currently zoonotic emerging infectious diseases are still or are even a higher threat for global health including animal public and environmental health, probably due to factors such as globalization, the increasing temperature of global health, intensive agriculture, or industrialization, which have favored the emergence or re-emergence of these diseases among many others. Today more than ever the high interconnection of human animals and the environment highlights the need of a One Health approach to understand aspects related with the transmission or control of these emerging pathogens. This Research Topic aims to provide a collection of comprehensive articles of different areas of interest such as epidemiology, diagnosis, and pathology in infections caused by emerging or re-emerging zoonotic pathogens including viruses, parasites, and bacteria in humans, domestic animals, and or wildlife. The major areas to be included regarding emerging or re-emerging zoonoses might be: Epidemiology including research on host range, transmission, genetic diversity, prevalence, and distribution; Pathology including clinical signs and lesions caused by the infection of emerging zoonotic pathogens; Diagnosis including novel techniques of indirect or direct assays as well as novel approaches in the diagnosis of these pathogens; Control of emerging zoonoses.

**From Jesus to the Church** Craig A. Evans, 2014-01-01 This study traces the tumultuous history of the very first followers of Jesus. Specifically, author Craig A. Evans looks at how a chain of events from 37 CE beginning with Jesus's entry into Jerusalem and subsequent crucifixion and ending with the destruction of the temple led to the separation between the followers of Jesus and other Jews. Topics include the following: 1 whether Jesus actually intended to found the Christian Church; 2 the ways in which Jesus's proclamation of the Kingdom of God relate to the Christian Church; 3 the role of James brother of Jesus in the new movement in Jerusalem; 4 the tension between James and Paul in the matter of law and works; 5

the conflict between the families and followers of Jesus and those of the high priest Annas before the destruction of the temple and 6 the aftermath of the Jewish rebellion whereby the Church moved away from its Jewish roots An appendix further explores the reasons behind the rift between the Jesus movement and the synagogue
