Prospector Of University Of Pretoria 2014:

The Strategic Repositioning of Arts, Culture and Heritage in the 21st Century George Mugovhani, Owen Seda, 2018-06-11 The post millennium world has been experiencing several recognisable historical milestones with regard to arts culture and heritage One of these has been the resuscitation and revival of creative elements of the arts culture and heritage of previously marginalised or disadvantaged communities around the world Until recently there had been scant regard and skewed allocation of resources for these but lately attempts have been made to promote and sustain them in order to enable the socio economic aspirations of a multicultural society The contributions brought together here are the product of papers that were presented during a conference on Strategic Repositioning of Arts Culture and Heritage in the 21st Century They cover a broad spectrum of subjects such as indigeneity music song and identity politics national reconciliation education product development and national development Supporting Multiculturalism and Gender Diversity in University Settings Zhou, Molly Y., 2015-03-31 Despite modern technology and the focus on international business striving to make the world a smaller place many organizations still struggle with the need for diversity and multiculturalism This issue is also present in academia as women of color and those previously perceived to be in the ethnic minority continue the journey to become the educators and leaders that universities need Supporting Multiculturalism and Gender Diversity in University Settings examines the experiences of some of these female leaders and what they learned in their rise through education and academia Highlighting stories of feminism race and what it means to use these life lessons in the classroom this book is a valuable resource for higher education administrators policymakers and women professionals everywhere **Discrimination and Diversity: Concepts, Methodologies, Tools, and Applications** Management Association, Information Resources, 2017-05-17 The growing presence of discrimination and isolation has caused negative changes to human interactions With the ubiquity of these practices there is now an increasingly urgent need to close this divide Discrimination and Diversity Concepts Methodologies Tools and Applications provides a critical look at race gender and modern day discrimination and solutions to creating sustainable diversity across numerous contexts and fields Including innovative studies on anti discrimination measures gender discrimination and tolerance this multi volume book is an ideal source for professionals practitioners graduate students academics and researchers working in equality as well as managers and those in leadership roles **Uprooting University Apartheid in South Africa** Teresa A. Barnes, 2018-12-07 South Africa continues to be an object of fascination for people everywhere interested in social justice issues postcolonial studies and critical race theory as manifested by the enormous worldwide attention given to the RhodesMustFall movement In this book Teresa Barnes examines universities complex positioning in the apartheid era and argues that tracing the institutional legacies left by pro apartheid intellectuals are crucial to understanding the fight to transform South African higher education A work of interpretive social history this book investigates three historical dynamics in the relationship between the

apartheid system and South African higher education First it explores how the legitimacy of apartheid was historically reproduced in public higher education Second it looks at ways that academics maneuvered through and influenced national and international discourses of political freedom and legitimacy Third it explores how and where stubborn tendrils of apartheid era knowledge production practices survived into and have been combatted during the democratic era in South African universities

Integrating Predation Risk Across Scales: From Neurons to Ecosystems and Milliseconds to Generations Jacqueline Jeannette Blundell,Evan Preisser,2020-06-04

Recalibrating teacher training in African higher education institutions Sifiso Sibanda,Gideon (Deon) P. van Tonder,Washington T. Dudu,2023-03-01 This book critically examines the role of governments in promoting parity during and in post pandemic education This comes from the realisation that the pandemic has deepened the crisis by depleting the meagre resources that African countries might have devoted to normative educational practices where those on the margins would have been pushed further behind while the privileged would have been further initiated into the cultural and capital flows of private schools and historically research intensive institutions of higher learning This has far reaching implications for the education of underprivileged citizens and education particularly modes and modalities of delivery has to be reimaged to subvert the challenges wrought by the pandemic This book significantly bridges the gap between the pre and post COVID 19 pandemic pedagogical practices and the erstwhile modalities that have been resilient over time The book focuses on ways to stave off pedagogical challenges that face countries as the global pandemic makes its mark

From Student to Urban Planner Tuna Taşan-Kok,Mark Oranje,2017-12-06 For many young planners the noble intentions with going to planning school seem starkly out of place in the neoliberal worlds they have come to inhabit For some the huge gap between the power they thought they would have and what they actually do is not only worrying but also deeply discouraging But for some others practice means finding practical and creative solutions to overcome challenges and complexities How do young planners in different settings respond to seemingly similar situations like these What do they do give up adjust or fight back What role did their planning education play and could it have helped in preparing and assisting them to respond to the world they are encountering In this edited volume stories of young planners from sixteen countries that engage these questions are presented The sixteen cases range from settings with older established planning systems e g USA the Netherlands and the UK to settings where the system is less set e g Brazil being remodeled e g South Africa and Bosnia Herzegovina and under stress e g Turkey and Poland Each chapter explores what might be done differently to prepare young planners for the complexities and challenges of their real worlds This book not only points out what is absent but also offers planning educators an alternative vision The editors and esteemed contributors provide reflections and suggestions as to how this new generation of young planners can be supported to survive in embrace and change the world they are encountering and in the spirit of planning endeavor to change it for the better

UNESCO science report UNESCO,2015-11-09 There are fewer grounds today than in the past to deplore a North

South divide in research and innovation This is one of the key findings of the UNESCO Science Report towards 2030 A large number of countries are now incorporating science technology and innovation in their national development agenda in order to make their economies less reliant on raw materials and more rooted in knowledge Most research and development R D is taking place in high income countries but innovation of some kind is now occurring across the full spectrum of income levels according to the first survey of manufacturing companies in 65 countries conducted by the UNESCO Institute for Statistics and summarized in this report For many lower income countries sustainable development has become an integral part of their national development plans for the next 10 20 years Among higher income countries a firm commitment to sustainable development is often coupled with the desire to maintain competitiveness in global markets that are increasingly leaning towards green technologies The quest for clean energy and greater energy efficiency now figures among the research priorities of numerous countries Written by more than 50 experts who are each covering the country or region from which they hail the UNESCO Science Report towards 2030 provides more country level information than ever before The trends and developments in science technology and innovation policy and governance between 2009 and mid 2015 described here provide essential baseline information on the concerns and priorities of countries that could orient the implementation and drive the assessment of the 2030 Agenda for Sustainable Development in the years to come **Coping With**
