Engagement and Lifelong Learning Julia Preece,2017-07-13 This book offers a conceptual re think of how university community engagement functions as a lifelong learning resource for communities While having a specific focus on the South African context it has important implications for other universities which are concerned with their communities and makes a compelling argument for the university as a public good in spite of current trends towards marketization and commodification of higher education The book draws on a theoretical framework of capabilities asset based community development and the adult learning concept of dialogue to propose a model whereby the boundary walls of the university become metaphorically porous so that community members feel free to interact with the university as equal members of society A historical outline of African universities is provided as well as an exploration of the evolution of terms for community engagement service learning and learning cities and an examination of the policy and practice implications for the ideological model of a porous university *Open and Distance Education* Mr. Rohit Manglik,2023-03-23 In this book we

will study about the concepts delivery models and advantages of open and distance learning systems **Regulating EU Capital Markets Union** Dybiński Veil,2025-05-27 The current framework of EU regulation concerning capital markets is complex and partly inconsistent in the way that it is applied in the various Member States Through the Capital Markets Union CMU project the European Union is pursuing the goal of establishing a true single market for capital in Europe

Regulating EU Capital Markets Union Market Conduct and Corporate Disclosure in a European Code is the second of a two volume series proposing the codification of EU legislature as a way to establish this goal This volume focuses on a reform of market abuse short selling corporate disclosure and public takeovers In doing so it considers the fact that financial markets law is now characterized by the idea of promoting sustainable investments In addition the book proposes to introduce union wide civil liability and to harmonise administrative sanctions A higher degree of harmonisation will foster greater market integration and remove barriers to cross border activity A holistic codification follows the framework of Better Regulation namely the principle of proportionality and of a comprehensive and coherent approach The book proposes relief of regulatory burden for companies listed on regulated markets to incentivize growth companies to go public Codification allows for a comprehensive approach thus the consideration of all affected aspects Furthermore a codification fits into the objective of following a coherent approach codification is consistent with the high level and long term policy objectives of the Capital Markets Union and the Savings and Investment Union

Stocks for All: People's Capitalism in the Twenty-First Century Petri Mäntysaari, 2021-12-31 Public stock markets are too small This book is an effort to rescue public stock markets in the EU and the US There should be more companies with publicly traded shares and more direct share ownership Anchored in a broad historical study of the regulation of stock markets and companies in Europe and the US the book proposes ways to create a new regulatory regime designed to help firms and facilitate people's capitalism Through its comparative and historical study of regulation and legal practices the book helps to understand the evolution of public stock markets from the nineteenth century to the present day The book identifies design principles that reflect prior regulation While continental European company law has produced many enduring design principles the recent regulation of stock markets in the EU and the US has failed to serve the needs of both firms and retail investors The book therefore proposes a new set of design principles to serve contemporary societal needs

The EU Crowdfunding Regulation Pietro Ortolani, Marije Louisse, 2022 This book is an in depth and timely analysis of the EU Crowdfunding Regulation Striking a balance between academic scrutiny and practical context and drawing upon various aspects of financial law consumer law and dispute resolution it is invaluable for practitioners and academics seeking to understand an innovative alternative mode of funding
