Non-fluent Aphasia in a Multilingual World , 1995-01-01 Non fluent Aphasia in a Multilingual World is an up to date introduction to the language of patients with non fluent aphasia Recent research in languages other than English has challenged our old descriptions of aphasia syndromes while their patterns can be recognized across languages the structure of each language has a profound effect on the symptoms of aphasic speech However the basic linguistic concepts needed to understand these effects in languages other than English have rarely been part of the training of the clinician Non fluent Aphasia in a Multilingual World introduces these concepts plainly and concretely in the context of dozens of examples from the narratives and conversations of patients speaking most of the major languages of Europe North America and Asia Linguistic and clinical terms are carefully defined and kept as theory neutral as possible Non Fluent Aphasia in a Multilingual World is especially useful for speech language pathologists whose patients are immigrants and guestworkers and for the

clinician who must deal creatively with the challenges of providing aphasia diagnosis and therapy in a multicultural multidialectal setting *The Articulate Mammal* Jean Aitchison, 2007-09-12 An established bestseller *The Articulate Mammal* is a concise and highly readable introduction to the main topics in psycholinguistics This fifth edition brings the book up to date with recent theories including new material on the possibility of a language gene post Chomskyan ideas language within an evolutionary framework spatial cognition and how this affects language how children become acclimatized to speech rhythms before birth the acquisition of verbs construction and cognitive grammar aphasia and dementia Requiring no prior knowledge of the subject chapter by chapter *The Articulate Mammal* tackles the basic questions central to the study of psycholinguistics Jean Aitchison investigates these issues with regard to animal communication child language and the language of adults and includes in the text full references and helpful suggestions for further reading

Resources in Education , 1989 CogLab Reader Aimée M. Surprenant, Greg Francis, Ian Neath, 2005 This COGLAB READER includes 32 articles each of which corresponds to a demonstration or set of demonstrations in the CogLab Cognitive Psychology Laboratory Available online or on CD ROM CogLab provides an invaluable laboratory component for cognitive psychology classes This virtual laboratory gives the students a sense of how experiments are conducted and how individual and group data look The reader complements that goal in providing a historical and theoretical context for the experiments Each reading is accompanied by an introduction and questions for discussion that draw both on the reading and on the associated CogLab demonstration *Children of Immigration* Carola Suárez-Orozco, Marcelo M. Suárez-Orozco, 2009-06-30 Now in the midst of the largest wave of immigration in history America mythical land of immigrants is once again contemplating a future in which new arrivals will play a crucial role in reworking the fabric of the nation At the center of this prospect are the children of immigrants who make up one fifth of America's youth This book written by the codirectors of the largest ongoing longitudinal study of immigrant children and their families offers a clear broad interdisciplinary view of who these children are and what their future might hold For immigrant children the authors write it is the best of times and the worst These children are more likely than any previous generation of immigrants to end up in Ivy League universities or unschooled on parole or in prison Most arrive as motivated students respectful of authority and quick to learn English Yet at the same time many face huge obstacles to success such as poverty prejudice the trauma of immigration itself and exposure to the materialistic hedonistic world of their native born peers The authors vividly describe how forces within and outside the family shape these children's developing sense of identity and their ambivalent relationship with their adopted country Their book demonstrates how Americanization long an immigrant ideal has in a nation so diverse and full of contradictions become ever harder to define let alone achieve Language and Emotion. Volume 3 Gesine Lenore Schiewer, Jeanette Altarriba, Bee Chin Ng, 2023-05-08 The Handbook consists of four major sections Each section is introduced by a main article Theories of Emotion General Aspects Perspectives in Communication Theory Semiotics and Linguistics Perspectives on Language and

Emotion in Cultural Studies Interdisciplinary and Applied Perspectives The first section presents interdisciplinary emotion theories relevant for the field of language and communication research including the history of emotion research The second section focuses on the full range of emotion related aspects in linguistics semiotics and communication theories The next section focuses on cultural studies and language and emotion emotions in arts and literature as well as research on emotion in literary studies and media and emotion The final section covers different domains social practices and applications such as society policy diplomacy economics and business communication religion and emotional language the domain of affective computing in human machine interaction and language and emotion research for language education Overall this Handbook represents a comprehensive overview in a rich diverse compendium never before published in this particular domain
