Integrating Theology, Church, and Ministry in a Chinese Seminary Peter L. H. Tie, Kevin Chen, 2024-10-21 A perennial challenge for theological education is the integration of what is learned in the classroom with students church life and ministry Is there a connection How can greater connection be fostered Many seminaries earnestly wrestle with these questions Whereas some of the underlying issues are common to all seminaries others are influenced by the cultural context in which theological education church life and ministry take place In addition to cultural factors the history lifestage and current state of the church and of theological education are different in each context The integration of theology church and ministry is crucial to the effectiveness of a Chinese seminary The great need for theological education for Chinese Christian leaders has rightly been sounded and should continue to be but simultaneously seminaries must think seriously about how to promote quality theological education Beginning with a programmatic article by Dr David Dockery a leading proponent for effective integration this book represents the efforts and reflection of experienced scholar practitioners who work out a vision for integration in the context of a diaspora Chinese seminary in San Jose California

Gire,2023-05-15 Corruption in Society Multidisciplinary

Conceptualizations is the first book to address the notion of corruption in a truly multidisciplinary manner augmented with empirical evidence The prevalent definition in books and articles on corruption is that it is a dishonest or fraudulent conduct by those with political and or economic power typically involving bribery This political economy or public choice denotation while very useful is inadequate for a comprehensive understanding of the concept because the notion of corruption appears in every discipline For example in the field of chemistry chemical corruption concerns a the incorporation of defective

compounds into experiments to better simulate conditions on the early Earth and to help us understand how the first molecules of life formed and b how to make chemicals appear safer sometimes dodging restrictions on their use by minimizing the estimates of how much is released into the environment In order to address this shortcoming this book provides a discipline by discipline conceptualization of corruption buttressed with evidence from the discipline
