What made him abuse his newly wedded wife? Why did his son become an aggressive child? There is no way I would have expected this from such a considerate and loving person. Everything in their relationship seemed to be thriving. It may be possible that we never know someone until they are pushed to the point in which he or she are forced to act in response to a situation. I witnessed this happening and never could have predicted what transpired.

My Aunt Natalie (not her real name) has always been an independent iron-willed woman. Natalie encountered a man named Ricky (not his real name) who was selfless, candid, and courteous. During their courtship Ricky was a perfect gentleman. They went out to drink at bars, attended social gatherings, and celebrated holidays with each other's families. Within a year Natalie and Ricky fell in love and decided to get married. Shortly after the wedding Natalie became pregnant and gave birth to my cousin Justin (not his real name). Everything seemed blissful until Natalie was able to get back on her feet and involve herself in recreational activities once more.

Ricky did not have a formal education. He crossed the threshold of America only one year before he married Natalie, so it became very challenging for him to find a job. Ricky desired that Natalie stay home and tend to the responsibility of raising her son, but Natalie disagreed with Ricky's views. Natalie nurtured and cared for her child, but on occasion she would attend a local tavern or social gathering. Ricky eventually became fed up with what he felt was blatant neglect for his aspirations of having a similar household to those of his homeland, Peru. In Ricky's family wives cater to the needs of their immediate family without much personal fulfillment.

Turtle Hypodermic of Sickenpods David Solway, 2000-11-21 A dominant theme that pervades this collection is the status of theory in the educational system Solway claims that nothing of genuine and productive import comes out of theories The manifold problems that bedevil the academy cannot be solved or even rectified by the usual onslaught of dogmas reforms and pseudo revolutionary postulates that are produced in the misguided attempt to find the single perfect pedagogical system Instead we must embark on a stringent re examination of the principles and assumptions on which our culture itself is predicated as reflected in contemporary practice To do this we need to develop an accurate killer heuristic to identify and monitor threats to our vocational well being and effectiveness This requires courage a horror of sentimental credulity and a willingness to learn from those in the educational trenches the reference librarian should be questioned about the fate of the book not the academic dean who has seldom read one the teacher who has weathered innumerable classes should be heard not the personnel director who is rarely in the building the department secretary who is about to lose her job should be heeded while a jaundiced eye is turned on the omnipresent school coordinator In almost every case Solway believes those who deal directly with students will tell you the truth about what is happening to education while administrators will shuffle and mislead The essays here are based on information from the trenches as well as from a significant minority of writers on educational and cultural themes The *Turtle Hypodermic of Sickenpods* will be must reading for anyone interested in the fate of students and the education system
