Peri-Urban Developments and Processes in Africa with Special Reference to Zimbabwe Innocent Chirisa, Elias Mazhindu, Elmond Bandaiko, 2016-05-23 This book focuses on peri urban development processes in Africa with special emphasis on Zimbabwe. The debates included highlight a number of issues in the peri urban context such as access to water, appropriate technologies and land management, political economy in the peri urban space, peri urban agriculture and place marketing in peri urban development among others. The debates raised by the authors in this book revolve around locating the peri urban space within the context of sustainability in which key issues are addressed. The book essentially examines peri urban development processes from various angles in an effort to understand how peri urban areas develop, function and how their residents survive. Peri urban dwellers currently face numerous challenges including land tenure insecurity, poor infrastructure and services, land use conflicts, stringent planning law and land use planning regulations. This work seeks to address the knowledge gap on peri urban development processes in Africa and is also intended to inform urban policy practice in the African Cities and beyond. Offering policy makers valuable insights on the peri urban space, it provides guidance for decision making in the contexts of service delivery, land management, housing, new town development and place marketing among others.

Handbook of Migration and Health Felicity Thomas, 2016-12-30 Migration is now firmly embedded as a leading global policy issue of the twenty first century. Whilst not a new phenomenon, it has altered significantly in recent decades with changing demographics, geopolitics, conflict, climate change and patterns of global development shaping new types of migration. Against this evolving backdrop, this Handbook offers an authoritative overview of key debates underpinning migration and health in a contemporary global context.

Inclusive Businesses in Agriculture Wytse Chamberlain, Ward Anseeuw, 2017-03-30 Inclusive business is hailed as a win-win scenario for the development of poor communities, yet there is little insight into how these inclusive businesses work and more importantly for whom. This book aims for a thorough understanding of the range of inclusive businesses in agriculture by examining the structures they implement, the actors involved and whether they are effectively inclusive of smallholders. It presents a range of case studies and is therefore empirically based and practically oriented. By offering a critical assessment of inclusive businesses, overall it allows for a better perception of what works, where and under which conditions. It provides useful insights that will benefit smallholders, agri-businesses, support groups, policy makers and investors who are willing to promote more inclusive businesses that foster a better integration of smallholders into commercial value chains and a more equitable and sustainable agricultural sector.

Trust, Courts and Social Rights David Vitale, 2024-02-07 Trust, Courts and Social Rights proposes an innovative legal framework for judicially enforcing social rights that is rooted in public trust in government or political trust. Interdisciplinary in nature, the book draws on theoretical and empirical scholarship on the concept of trust across disciplines including philosophy, sociology, psychology and political theory. It integrates that scholarship with the relevant public law

literature on social rights fiduciary political theory and judicial review In doing so the book uses trust as an analytical lens for social rights law importing ideas from the scholarship on trust into the social rights literature and develops a normative argument that contributes to the controversial debate on how courts should enforce social rights Also global in focus the book uses cases from courts in Africa Europe Latin America and North America to illustrate how the trust based framework operates in practice
