Protection Minority Under International European:

Minority Rights Protection in International Law Helen O'Nions, 2016-04-22 There are approximately ten million Roma in Europe making them the continent's largest non territorial minority Despite this fact the Roma continue to experience routine discrimination and marginalization in European countries As a result they are seldom engaged in national political activism and are frequently at the bottom of the economic and social ladder The severity of exclusion experienced by the Roma in societies which have long paid heed to the notion of individual universal human rights combined with their geographical dispersal and heterogeneous nature makes the study of the Roma highly informative This book examines the theoretical debate concerning the most appropriate way of protecting the fundamental human rights of the Roma which also illuminates ways in which the rights of minority groups can be protected more generally As a result this work will be a valuable resource for social scientists and practitioners in the field of human rights

the institutions of the European Community culminating into its enlargement to Eastern Europe under the aegis of economic integration democracy and human rights This book examines the development and the role of human rights in the European Union from its inception as an economic co operation project to an organisation of European States with a political agenda that goes beyond its borders It argues that human rights have become an important component of the foreign policy of the European Union and that this role has grown from the inception of the Union through the Cold War and thereafter onto the process of enlargement of the Union The book goes on to analyse the EU s policy on minorities as a particular example of human rights It considers the level of their protection within the EU and the framework of international law and compares minority rights in the older Member States including France Germany and the UK with newer Eastern European states

Minority Rights in the 'New' Europe Peter Cumper, Steven Wheatley, 1999-02 *Minorities in Europe* Snežana Trifunovska (jurist), Katholieke Universiteit Nijmegen. Peoples and Minorities in International Law Catherine Brölmann, René Lefebvre, Marjoleine Zieck, 2023-12-11 The revival of group consciousness in Eastern European countries in the wake of the Cold War has put the protection of subnational groups high on the political agenda The present book bears witness to the renewed interest in the legal position of subnational groups in international law This book and the Conference at which provisional versions of most of the contributions were presented originate in perceived deficiencies of contemporary international law to protect subnational groups within a legal framework of which the principal subjects are states Divided into three parts the book commences with an analysis of the antagonistic relation between the right of peoples to self determination and the right of states to territorial integrity and the need to redefine these concepts in the post Cold War era The book continues with the highly controversial issue of the attribution of rights to subnational groups and the identification of subnational groups which would be entitled to such rights The second part deals with the identification and protection of peoples and minorities at different levels of

organization viz subnational national and supranational This part is followed by an analysis of the modes and means by which international obligations vis vis subnational groups can be enforced Not only the judicial means are considered but also the justifiability of recourse to military means to the cause of subnational groups This book not only provides an in depth analysis of contemporary international law with respect to the protection of peoples and minorities but also of the law as it is developing in the post Cold War era

Minority Rights in Kosovo under International Rule Clive Baldwin,2006-07-06 After seven years of international administration the longest and most expensive since the creation of the UN Kosovo remains one of the most segregated places in Europe with thousands of displaced persons still in camps and many ethnically pure towns and villages The report discusses the failure on the part of the international protectorate to learn lessons from the past and to draw on the minority rights expertise available within the UN and other bodies It shows how decision makers have been unaccountable and how the Constitutional Framework they have produced treats minority rights in a way that encourages segregation rather than integration As the future status of Kosovo is negotiated the report calls for radical change away from the acceptance of patterns of segregation that lead to ethnic cleansing and towards minority rights guaranteed by the rule of law The report is essential reading for all those interested in understanding Kosovo and how to create a more hopeful future there while its analysis also holds lessons for those working for the effective implementation of minority rights in other contexts

Wyn Rees,2002-09-11 Throughout much of Europe the preoccupation with military security that dominated political thinking after the end of the Second World War has given way to an emphasis upon mutual interdependence But what does this mean both theoretically and practically terms of a new agenda The focus of this book is upon four main issues economic development security the environment human rights These are of course not in themselves new issues but during the period of the Cold War they were subordinated to the ideological division of the continent Now they have emerged as decisive in the way in which Europe will develop The authors examine the four issues in depth and draw out the links between them They also examine the various levels at which these problems exist the level of the system of the state and of the individual Thus it is possible for them to illustrate general issues with specific reference to local national and Europe wide political debates
