**Prove It with Figures** Hans Zeisel, David Kaye, 2012-12-06 Prove It With Figures displays some of the tools of the social and statistical sciences that have been applied to the proof of facts in the courtroom and to the study of questions of legal importance. It explains how researchers can extract the most valuable and reliable data that can conveniently be made available and how these efforts sometimes go awry. In the tradition of Zeisel's Say It with Figures, a standard in the field of social statistics since 1947, it clarifies in non-technical language some of the basic problems common to all efforts to discern cause and effect relationships. Designed as a textbook for law students who seek an appreciation of the power and limits of empirical methods, the work also is a useful reference for lawyers, policymakers, and members of the public who would like to improve their critical understanding of the statistics presented to them. The many case histories include analyses of the death penalty, jury selection, employment discrimination, mass torts, and DNA profiling. Hans Zeisel was Professor of Law and Sociology Emeritus at the University of Chicago, where he pioneered the application of social science to the law. Earlier, he had a distinguished career in public opinion and market research. He has written on a wide variety of topics ranging from research methodology and history to law enforcement, juries, and Shakespeare. He was elected Fellow of the American Statistical Association and the American Association for the Advancement of Science, and in 1980 he was inducted into the Market Research Hall of Fame. David Kaye is Regents Professor at the Arizona State University, where he teaches evidence and related topics. An author of several law textbooks and treatises, his work also has appeared in journals of **Prove It!**

**Using Textual Evidence, Levels 3-5** Melissa Cheesman Smith, Terri Schilling, 2018-03-01 Knowing how to cite textual evidence is a key component in reading and writing in education today. This resource equips teachers with the strategies they need to teach students how to cite and annotate textual evidence when reading and writing. Primary school students will learn how to find evidence to support their opinions, incorporate that evidence in their writing, and accurately cite their sources. The ten lessons include proper MLA formatting, paraphrasing, the use of credible sources, avoiding plagiarism, and more. Students will apply what they've learned through twenty practice exercises. Citing textual evidence powerfully strengthens students' writing, develops analytical thinking and logic, and readies students for college and career with lessons that are aligned to McREL, TESOL, and WIDA standards. **Prove It!**
