The Strategies of Australia's Universities Timothy Devinney, Grahame Dowling, 2020-05-15 Over the last few decades universities in Australia and overseas have been criticized for not meeting the needs and expectations of the societies in which they operate At the heart of this problem is their strategy This book reviews the organizational level strategies of some of Australia's prominent universities It is based on their public documents that boldly report how they see their role in society and how they intend to navigate the future These strategic statements are written to proclaim relevance showcase achievements attract students and help to gain the support of the communities in which they operate Using a strategy framework taught in their business schools this book suggests that most such statements are deficient Grand aspirations substitute for realistic operations and outcomes The analysis also suggests that many of Australia's universities are poorly governed and have become too complex and bureaucratic A greater focus on their core responsibilities would help alleviate their current funding predicament

Shaping of European Education Martin Lawn, Romuald Normand, 2014-09-15 The range speed and scale of Europeanizing effects in education and their complexity has produced a relatively new field of study Using scholarship and research drawn from sociology politics and education this book examines the rise of international and transnational policy and the flow of data and people around Europe to study Europeanizing processes and situations in education Each chapter creates a space for policy research on European education involving a range of disciplines to develop empirical studies about European institutions networks and processes the interplay between policy makers stakeholders experts and researchers and the space between the European and the national The volume investigates the construction of European education exploring the consideration of the role of think tanks and consultancies international organizations researcher mobilities standards indicators of higher education and cultural metaphor Bringing together international contributors from a variety of disciplines across Europe the book will be of key value to academics researchers and postgraduate students in the fields of education studies politics and sociology
