*Tianjin Cosmopolis* Pierre Singaravélou,2025-07-08 At the turn of the twentieth century the city of Tianjin was the diplomatic capital of the Middle Kingdom where foreign consuls met Chinese dignitaries and a hub of commerce and culture Yet in the eyes of foreigners the city remained provincial After the tumult of the Boxer Rebellion however Tianjin transformed when a little known international political project turned it for a time into one of the most cosmopolitan places in the world Pierre Singarav lou tells the story of Tianjin s emergence as a transnational metropolis arguing that the city s experience challenges conventional narratives of the origins of globalization He focuses on the aftermath of the Boxer Rebellion when a number of imperial powers established an international military government that sought to modernize the city and its environs Under its reign people from all over the West and Asia flocked to Tianjin in a whirlwind of commercial and cultural exchange This provisional government embarked on ambitious public works and public health projects attempting to transform not only the city s infrastructure but also its residents behavior all while the imperial powers seized large foreign concessions Singarav lou traces the many tensions of the global city between accommodation and resistance for Tianjin s residents between colonization and internationalization within the provisional government and between cooperation and competition among the imperial powers Bringing together global and local perspectives *Tianjin Cosmopolis* offers a new vantage point on the imperial globalization of the early twentieth century      **Iraq in the Twenty-First Century** Tareq Y. Ismael,Jacqueline S. Ismael,2015-02-20 Much has been written about the events surrounding the 2003 Anglo American invasion of Iraq and its aftermath especially about the intentions principles plans and course of action of US policy but much less attention has been given to the consequences of US policy on Iraqi political and social development This book provides an in depth analysis of the impact of US policy on the social and political development of Iraq in the twenty first century It shows how not just the institutions of the state were destroyed in 2003 leaving the way open for sectarianism but also the

country's cultural integrity political coherence and national oriented economy It outlines how Iraq has been economically impoverished assessing the appalling situation which ordinary people including women and children have endured not just as a result of the 2003 war but also as a consequence of the 1991 war and the sanctions imposed in the following years The book argues that the social political and cultural ruin that accompanied the Iraq war was an absolute catastrophe that the policies which had such adverse effects were the foreseeable consequences of deliberate policy choices and that those responsible continue to evade being made accountable Reports from Commissioners Great Britain.
