The Business of Indie Games Alex Josef, Alex Van Lepp, Marshal D. Carper, 2022-05-03 The Business of Indie Games provides exceptional insight into how the video games industry works It shares valuable information on how to successfully self publish and secure publisher support Whether you re making your first game or tenth this book is a must read Paul Baldwin Curve Digital The video game industry is a tough business and anyone looking to succeed in indie development should give The Business of Indie Games a read Graham Smith Co Founder of DrinkBox Studios This book is a fast track to success for anyone managing a game launch and looking to raise funding for their projects It shares knowledge that you only learn after years of triumphs and failures within this industry Scott Drader Co Founder of Metalhead Software There s nothing like The Business of Indie Games taught in school You learn how to make a game but not how to conduct business market and launch a game This book dives into topics that every indie developer should know Yukon Wainczak Founder of Snoozy Kazoo I ve

seen no better guide for understanding how the video game industry really works An important read for anyone whose work touches games including those of us looking to engage the community Carla Warner Director of STREAM for No Kid Hungry

The Business of Indie Games explores what many universities forget to cover how to sell and market your own indie game to potential publishers and developers While many classes help students on their way to designing and programming their own games there are few classes that equip students with the skills to sell their own product In essence this means future indie game developers are not equipped to talk to investors negotiate with publishers and engage with major platforms like Steam and Nintendo Authors Alex Josef Alex Van Lepp and Marshal D Carper are looking to rectify this problem by helping indie game developers and companies level up their business acumen With detailed chapters and sections that deal with different engines negotiation tactics and marketing The Business of Indie Games is the perfect omnibus for up and coming indie game developers The future of gaming curriculums is not just in teaching students how to create games but also in preparing them for the business of games

The Legend of Final Fantasy VIII Rémi Lopez, 2019-02-19 The eighth episode of the incredible story of Final Fantasy A legendary episode of the Japanese RPG Final Fantasy VIII is fully decoded in this book Discover a complete analysis of one of the most famous saga of the world of video games embellished with a reflection on the report of the fans to the series To read as soon as possible

EXTRACT The work on Final Fantasy VIII began in 1997 just after Final Fantasy VII was completed and the game's development ran concurrently with that of Parasite Eve Although Final Fantasy VII marked a genuine turning point in the series the designers were hardly lackadaisical when it came to the eighth episode's production and staging In fact they worked doubly hard to avoid disappointing fans after their adventure with Cloud First the decision was made to use the same console the Sony PlayStation Since the seventh episode was a smashing success the major personalities who had presided over its creation were reassembled to create the new game Thus the team consisted of the renowned Hironobu Sakaguchi Yoshinori Kitase as director Kazushige Nojima as scriptwriter Yusuke Naora as artistic director and Tetsuya Nomura as character designer And of course the distinguished composer Nobuo Uematsu was once again chosen to create the episode's magnificent soundtrack in its entirety

(Frank) Bosman, 2019-04-18 Video game studies are a relative young but flourishing academic discipline But within game studies however the perspective of religion and spirituality is rather neglected both by game scholars and religion scholars While religion can take different shapes in digital games ranging from material and referential to reflexive and ritual it is not necessarily true that game developers depict their in game religions in a positive confirming way but ever so often games approach the topic critically and disavowingly The religion criticisms found in video games can be categorized as follows religion as 1 fraud aimed to manipulate the uneducated as 2 blind obedience towards an invisible but ultimately non existing deity ies as 3 violence against those who do not share the same set of religious rules as 4 madness a deranged alternative for logical reasoning and as 5 suppression in the hands of the powerful elite to dominate and subdue the masses into submission and obedience The critical depictions of religion in video games by their developers is the focus of this special issue
