Private Military and Security Companies as Legitimate Governors Berenike Prem, 2019-06-19 This book examines the legitimization of Private Military and Security Companies (PMSCs) focusing on the controversy between PMSCs and nongovernmental organizations (NGOs). While existing studies disproportionately emphasize the ability for companies and their clients to dominate and shape perceptions of the industry, this book offers an alternative explanation for the oft-cited normalization of PMSCs and the trend to privatize security by analyzing the changing relationship between PMSCs and NGOs. It uses the concept of norm entrepreneurship to elucidate the legitimization game between these two dissimilar actors. Starting from the 1990s, the book shows that the relationship between PMSCs and NGOs has undergone a transition by literally moving from the barricades to the boardrooms. After years of fierce advocacy and PR campaigns against PMSCs, today both actors increasingly collaborate in multi-stakeholder initiatives, elevating the status of PMSCs from a scorned actor to a trusted partner in the regulation of the industry. The work offers a comprehensive explanation of when and why this kind of collective norm entrepreneurship is likely to occur. This book will be of interest to students of PMSCs, critical security studies, global governance, international norms, and International Relations.

Lawyers in 21st-Century Societies Richard L. Abel, Ole Hammerslev, Hilary Sommerlad, Ulrike Schultz, 2020-04-02 The world's legal professions have undergone dramatic changes in the 30 years since publication of the landmark three-volume *Lawyers in Society*, which launched comparative sociological studies of lawyers. This is the first of two volumes in which scholars from a wide range of disciplines, countries, and cultures document and analyse those changes. The present volume presents reports on 46 countries with broad coverage of North America, Western Europe, Latin America, Asia, Australia, North Africa, and the Middle East, sub-Saharan Africa, and former communist countries. These national reports address the impact of globalisation and neoliberalism on national legal professions, the relationship of lawyers and their professional associations to the state, and tensions between state and citizenship changes in lawyer demography, rapidly growing numbers, and the profession's efforts to retain control, the entry of women, and obstacles to full gender equality, ethnic diversity, legal education, the proliferation of institutions and pedagogic innovation, the regulation of lawyers' structures of production, especially the growth of large firms, and the impact of technology and paraprofessionals, the distribution of lawyers across roles, and access to justice, state-funded legal aid, and pro bono services. The juxtaposition of the reports reveals the dramatic transformations of professional rationales, labour markets, and working practices, and the multiple contingencies of the role of lawyers in societies experiencing increasing juridification within a new geopolitical order.
