Psychiatry Exam Questions:

1500 Questions in Psychiatry E-Book Albert Michael, Ben Underwood, 2007-06-21 This title is directed primarily towards postgraduate trainees in psychiatry preparing for examinations such as the MRCPsych. It contains 1525 questions with answers, explanations and references, ideal for self-testing before exams. The questions specifically focus on topics which occur most frequently in the real exams. The combination of comprehensive answers and targeted exam-relevant topics makes this book invaluable for anybody revising for their MRCPsych. Prepared by organisers of the Cambridge MRCPsych course which has a pass rate nearly double the UK average. Offers a wide variety of questions on targeted exam-relevant topics together with explanatory answers with a level of detail beyond most self-testing books. Topics selected to reflect those most frequently found in real exams. Topics presented in manageable chapters, each containing 25 questions, ideal for dipping in and out when time is limited. Answers contain full explanations and references for further detail, perfect for general revision and improving areas of need.

Revision MCQs and EMIs for the MRCPsych Basant K Puri, Roger Ho, Ian Treasden, 2011-03-25 This new revision guide with over 1500 questions, reasoned answers and links to explanatory text gives a comprehensive range of multiple choice questions (MCQs) and extended matching items (EMIs). Complete with sample papers, this book provides everything you need for the written parts of the MRCPsych and comparable higher postgraduate examinations in psychiatry. Contains over 550 MCQs and 350 EMIs divided into syllabus topics. Includes full-length sample exam papers for Parts 1, 2 and 3 of the MRCPsych. Challenging questions written to bring out key learning points. Full detailed answers and links to revision and remediation. Prepared by experienced teachers and writers of examination questions. This book is essential for all psychiatrists preparing for the written MRCPsych and similar examinations, allowing candidates to approach the exam with confidence.

1500 Questions in Psychiatry E-Book Albert Michael, Ben Underwood, 2007-06-21 The advent of Modernising Medical Careers (MMC), the Post Graduate Medical Education and Training Board (PMETB) and possibly other bodies yet to come will keep the format of the MRCPsych in a state of evolution for the foreseeable future. Preparing for changing exams formats poses an added challenge for candidates. Two things make this challenge less formidable than it may seem at first. Firstly, though the format of the exam may change, the core knowledge that it tests will not. Secondly, reformatting exams from scratch is an extremely time-consuming process and therefore future exams are likely to be based on previous exam questions. At the current time, ISO are still intended to be part of the exam format. In this book, the authors have picked over 1500 questions which are at the heart of each topic in the syllabus. To save time, the book is organised into manageable chapters of 25 questions each, of which can be answered in 15 minutes. Each chapter covers one speciality only, which will enable readers to access their knowledge in each area separately and hence identify their weak and strong areas. This book provides a useful revision and teaching aid well beyond simple question and answering. It is likely to stand the reader in good stead in future examinations whatever the format. Prepared by organisers of the Cambridge MRCPsych course.

Scheiber, Thomas A. Kramer, ABPN, 2008-08-13 The practice of medicine has changed radically during the past few decades Patients better informed than ever now demand more of their physicians viewing them as partners rather than revering them as sole decision makers In this environment nonnegotiable core competencies ever evolving and measured by certification recertification and more recently maintenance of certification are more important than ever Written from the perspective of those responsible for educating and certifying the next generations of psychiatrists this groundbreaking compendium by distinguished contributors offers for the first time a concise look at the final product of the June 2001 Invitational Core Competencies Conference sponsored by the American Board of Psychiatry and Neurology ABPN as regards psychiatry with a future comparable publication focusing on neurology Divided into four parts Part I sets the stage for the current concept of physician competence by presenting a brief history of medical competence explaining the logic behind the development of the current competence outline Part II provides two different views of how to look at core competencies how

competence is defined by the Royal College of Physicians and Surgeons of Canada and based on some of their work what is currently being done in the United States Part III discusses the organizing principles identified in 1999 by the Accreditation Council for Graduate Medical Education ACGME and the American Board of Medical Specialties ABMS that frame all of our conversations about competence as currently delineated for psychiatrists across the six core competency categories Patient Care Medical Knowledge Interpersonal and Communications Skills Practice Based Learning and Improvement Professionalism and Systems Based Practice Also presented are discussions of when in a physician's career these competencies should be assessed and what methodologies would be appropriate for that assessment Part IV discusses how the psychiatry core competencies are changing board certification and recertification Also presented are informed predictions about the changes that medical school faculty and residency training directors will have to make and how practitioners will have to change behaviors to maintain their board certification Concluding with an appendix outlining the six core competencies for psychiatry this invaluable resource will both help psychiatric residents and their faculty and training directors understand the core competencies important to the ABPN and provide practitioners with a view of what will be contained in their upcoming maintenance of certification programs now being designed

Demystifying

Psychiatry Charles F. Zorumski, MD, Eugene Rubin, MD, PhD, 2009-10-08 Psychiatry is arguably the most misunderstood specialty in modern medicine and psychiatrists are often thought of as part physician part confessor part police officer and part shaman In Demystifying Psychiatry two eminent psychiatrists offer an illuminating look at the entire field offering a clear and informative portrait of a medical specialty often clouded in myth Zorumski and Rubin range from a basic discussion of what psychiatry is to the types of illnesses psychiatrists treat the training of psychiatrists the treatment of psychiatric disorders covering medications psychotherapy lifestyle interventions electroconvulsive therapy and much more and how families can help with treatment They caution the consumer about practices that should raise red flags The book also covers new trends in psychiatry and explores the future of the field predicting that major advances in genetics and neuroscience will lead to rapid and amazing changes in psychiatry The book concludes with extensive reference materials that will be valuable both to general readers and medical practitioners
