Encyclopedia of Schizophrenia W. Wolfgang Fleischhacker,Ian P. Stolerma,2014-06-17 This mini encyclopedia aims to provide a survey of the wide range of interventions available for treating schizophrenia at a level appropriate for non specialists who are beginning their engagement in the area and for others as a source of reference for the specialist The pharmacological options are considered alongside psychosocial management approaches and the advantages and

disadvantages of each treatment modality are outlined The entries are written by leading experts including basic and clinical scientists in academia and industry and include descriptions of many relevant fundamental psychological and biological processes of the disorder The volume owes much to the Encyclopedia of Psychopharmacology edited by Ian Stolerman IP published by Springer Verlag in 2010 from which some entries are reproduced Where entries deal with pharmacological interventions the aim is to provide detailed information on the neuropsychopharmacology of the substances from domains such as clinical experimental and molecular pharmacology insofar as they impact upon understanding of schizophrenia Articles on non drug interventions review the most recent evidence base related to commonly applied psychotherapeutic and rehabilitative measures Other essays focus upon the key concepts and research methods used in the field describing the main features of investigative techniques and outlining their roles the types of information obtained and why they are needed the advantages and limitations of a technique may also be summarized The essays are complemented by many short definitions of important terms in the interest of ease of reading these definitions are not assigned to named authors they are typically related to specific essays that they cross reference and relevant authorship details can be found in the latter

Psychology and Covid-19 in the Americas Nelson Portillo, Melissa L. Morgan, Miguel Gallegos, 2023-11-09 This book is the second of two volumes that bring together the works presented at the congress Contributions of Psychology to COVID 19 organized by the Interamerican Society of Psychology in 2020 This was one of the first virtual international meetings on psychology and COVID 19 in the world and brought together researchers and professionals from South Central and North America in a single online event The content of both volumes includes many of the first issues addressed by researchers scholars and practitioners across the Americas at the start of the pandemic before vaccines before knowledge of treatment and impact before our worlds and daily lives were forever changed Chapters in the first volume focus on the impacts of the pandemic in mental health social and family dynamics educational processes and the work of health professionals Chapters in the second volume are dedicated to studies addressing the impacts of the pandemic in vulnerable populations proposals of psychological interventions to deal with the distress caused by COVID 19 strategies of coping resilience and adaptation and the development of psychological instruments of measurement and assessments during the pandemic The content of these two volumes marks a baseline for the collective work initiated by psychologists who came together to answer the call to combat the pandemic across the Americas In that sense both volumes are truly a snapshot in time that could help us assess in the future how much progress we have made to apply psychology to the pressing demands of our time
