Copyright Office,1978     *The Quest for the Inner Human* Steven H. Propp,2013-12-03 Psychology means the study of the soul it is the social science concerned with investigating who we are why we have certain feelings and why we do the things we do Are we no more than a vast assembly of nerve cells and their associated molecules Is biology our genetic inheritance destiny or does social upbringing play a crucial role What are the roles played by Nature and by Nurture Are we purely physical beings or is there an aspect that can be called spiritual This thought provoking novel takes you on a journey of intellectual and emotional exploration considering along the way questions that weve all asked ourselves such as Is it true that we only use 10% of our brains Does playing classical music for infants increase their intelligence Do crime rates go up during a full moon Can hypnosis or post hypnotic suggestions make us do something we

wouldnt normally do Does subliminal advertising influence us to buy products Are our memories stored indelibly almost like a tape recorder What causes memory lapses as we age Can repressed traumatic memories be recovered through hypnosis Do some people have multiple personalities How can I tell if someone has a neurosis or a psychosis Do men have an inner feminine side and women an inner masculine Are there innate psychological differences between males and females The four main characters in this book will guide you through a diverse and sometimes bewildering world of differing approaches to answering such questions such as Freudian Jungian and Adlerian Humanistic Existential and Transpersonal as well as Cognitive Emotive and Behaviorist Along the way you will learn about the developmental stages proposed by psychologists such as Erikson Kohlberg Piaget and Fowler and even explore some of the questions currently being asked by both neuroscientists and philosophers of the mind Start reading to begin your study of our innermost selves      *The Wiley International Handbook of Clinical Supervision* C.
