*Tools in Fluvial Geomorphology* G. Mathias Kondolf, Hervé Piégay, 2005-01-28 In recent years there has been a marked increase in funding and employment in river restoration. *Methods in Fluvial Geomorphology* provides an integrated approach to the interdisciplinary nature of the subject and offers guidance for researchers and professionals on the tools available to answer questions on river management on very different scales. Each chapter is organised to cover everything from general concepts to specific techniques. Topics covered include evolution of methods, guiding concepts, a framework for deciding when to apply specific tools, advantages and limitations of the tools, sources of data, equipment and supplies needed, and a summary table. Provides the professional with a useful handbook covering all tools used in fluvial geomorphology. Also provides valuable information on the advantages and limitations of the tools. All chapters include case studies to give examples of the applications of the tools discussed.

Moreno, 2012-05-01 One of the most important thinkers describes the literally mind-boggling possibilities that modern brain science could present for national security. LAWRENCE J. KORB, former US Assistant Secretary of Defense. Fascinating and frightening. *Bulletin of the Atomic Scientists*. The first book of its kind. *Mind Wars* covers the ethical dilemmas and bizarre history of cutting-edge technology and neuroscience developed for military applications. As the author discusses the innovative Defense Advanced Research Projects Agency (DARPA) and the role of the intelligence community and countless university science departments in preparing the military and intelligence services for the twenty-first century, he also charts the future of national security. Fully updated and revised, this edition features new material on deep brain stimulation, neuro hormones, and enhanced interrogation. With in-depth discussions of psyops, mind control, experiments, drugs that erase both fear and the need to sleep, microchip brain implants, and advanced prosthetics, supersoldiers, and robot armies, *Mind Wars* may read like science fiction or the latest conspiracy thriller, but its subjects are very real and changing the course of modern warfare. Jonathan D. Moreno has been a senior staff member for three presidential advisory commissions and has served on a number of Pentagon advisory committees. He is an ethics professor at the University of Pennsylvania and the editor in chief of the Center for American Progress online magazine *Science Progress*.
