Ghodsee, 2023-05-16 A fascinating The Wall Street Journal spirited and inspiring Jacobin tour through the ages in search of the thinkers and communities that have dared to reimagine how we might better live our daily lives In the 6th century BCE the Greek philosopher Pythagoras a man remembered today more for his theorem about right angled triangles than for his progressive politics founded a commune in a seaside village in what's now southern Italy The men and women there shared their property lived as equals and dedicated themselves to the study of mathematics and the mysteries of the universe Ever since humans have been dreaming up better ways to organize how we live together pool our resources raise our children and determine who's part of our families Some of these experiments burned brightly for only a brief while but others carry on today from the Danish cohousing communities that share chores and deepen neighborly bonds to matriarchal Colombian ecovillages where residents grow their own food and from Connecticut where new laws make it easier for extra alloparents to help raise children not their own to China where planned microdistricts ensure everything a busy household might need is nearby One of those startlingly rare books that upends what you think is possible *Everyday Utopia* provides a powerful reminder that dreaming of better worlds is not just some fantastical project but also a political one Rebecca Traister New York Times bestselling author of *Good and Mad* This must read Thomas Piketty New York Times bestselling author of *A Brief History of Equality* offers a radically hopeful vision

for how to build more contented and connected societies alongside a practical guide to what we all can do in the meantime to live the good life each and every day *Critical Care Study Guide* Gerard J. Criner, Rodger E. Barnette, Gilbert E.

D'Alonzo, 2010-06-27 Critical care medicine is a dynamic and exciting arena where complex pathophysiologic states require extensive knowledge and up to date clinical information An extensive knowledge of basic pathophysiology as well as awareness of the appropriate diagnostic tests and treatments that are used to optimize care in the critically ill is essential Since our first edition 7 years ago new information crucial to the care and understanding of the critically ill patient has rapidly accumulated Because this knowledge base crosses many different disciplines a comprehensive multidisciplinary approach presenting the information is essential similar to the multidisciplinary approach that is used to care for the critically ill patient We have strived to provide this content in an easily digestible format that uses a variety of teaching tools to facilitate understanding of the presented concepts and to enhance information retention To meet the demand to provide comprehensive and diverse education in order to understand the pathogenesis and optimum care of a variety of critical illnesses we have substantially revised the prior topics in the first edition with updated information We have also markedly expanded the number of topics covered to include acute lung injury and the acute respiratory distress syndrome an expanded discussion of the physiology and operation of mechanical ventilation obstetrical care in the ICU neurosurgical emergencies acute coronary syndromes cardiac arrhythmias role of whole body rehabilitation in the ICU ethical conduct of human research in the ICU and nursing care of the ICU patient
