Andrew Terhemmen Tyowua, 2023-03-31 Successful completion of postgraduate studies especially PhD and career advancement in academia strongly depend on the ability to publish scientific papers or books and attract research grants However many chemical scientists find preparing scientific papers and research grant and book proposals difficult partly because of insufficient training in writing and partly because there are few practical books to enable them to learn the art This step by step practical guide is intended mainly for postgraduate students and early career researchers in chemical science and the libraries that serve them but will also be useful to other scientists Key Features Improves the reader's chances of getting their manuscript published in chemistry journals Increases the likelihood of winning research grants in chemistry Takes a lead by the hand approach Contains chapters on the preparation of graphical abstracts and research highlights Uses sketches and other illustration styles to aid mental visualization of concepts Contains practical examples taken from published papers and successful research grant proposals **Practice and Innovations in Sustainable**

Transport Tariq Muneer, Mehreen Saleem Gul, Eulalia Jadraque Gago, 2020-05-28 The book continues with an experimental

analysis conducted to obtain accurate and complete information about electric vehicles in different traffic situations and road conditions For the experimental analysis in this study three different electric vehicles from the Edinburgh College leasing program were equipped and tracked to obtain over 50 GPS and energy consumption data for short distance journeys in the Edinburgh area and long range tests between Edinburgh and Bristol In the following section an adaptive and robust square root cubature Kalman filter based on variational Bayesian approximation and Huber's M estimation is proposed to accurately estimate state of charge SOC which is vital for safe operation and efficient management of lithium ion batteries A coupled inductor DC DC converter with a high voltage gain is proposed in the following section to match the voltage of a fuel cell stack to a DC link bus Finally the book presents a review of the different approaches that have been proposed by various authors to mitigate the impact of electric buses and electric taxis on the future smart grid

Great Britain: Parliament: House of Commons: Transport Committee,2012-09-20 Consumer demand for plug in vehicles remains very low and the Government grant to encourage demand may not be proving effective The Government must do more to show that its plug in vehicle strategy is a good use of public money Carbon emissions from transport must be reduced if the UK is to meet its climate change targets but public money must be targeted on effective policies So far Department for Transport expenditure on plug in cars some 11 million has benefited just a handful of motorists There is a risk that the Government is basically subsidising second cars for affluent households It is also unclear whether the provision of public charging infrastructure encourages demand for plug in cars Indeed the Government does not even have a register of all the chargepoints installed at public expense *Global Competitive Strategy* Daniel F.
