Comprehensive Multicultural Education in the 21st Century Brandi Hinnant-Crawford,C. Spencer Platt,Christopher Newman,Adriel A. Hilton,2019-04-01 Multicultural education has become its own discipline developed on the shoulders of the work of giants who argued its merit during the attacks of opponents who believed assimilation was the purpose of state sponsored

education In an age of rising populism and nationalism throughout the Western world again questioned is the merit of multicultural education In the shadows of Brexit and an America First agenda where migration patterns across the world have led to demographic shifts it is evident even in the richest countries in the world that gaps in opportunity and subsequently achievement still exist Disparities in achievement lead some to question whether multicultural education works and others to revert to old notions that ethnically and linguistically marginalized students are in fact deficient The scholars here believe in the untapped potential of all children and illuminate how educational structures have muffled the cultivation of that potential Contributors argue the goals of multicultural education have not been achieved in part due to the piecemeal application of its tenants The scholarship in this volume illustrates the state of multicultural education and articulates what educators committed to equity inclusion and a more just society must do to ensure the goals of multicultural education survive in the current age The authors of these chapters bridge foundational knowledge with contemporary understandings making the work both accessible for novices and beneficial for the authorities on multicultural education With the diverse cast of contributors and topics ranging from mathematics instruction to discipline practices this volume provides thoughtful discourse on issues of access access to curricular content access to opportunities to learn as well as impediments to access Containing chapters that speak to discipline specific pedagogical practices the structures of schooling teacher education and research methodologies the collected work encourages scholars and practitioners to not be discouraged in the age of retrenchment

Forcing the Spring Jo Becker, 2014-04-22 A New York Times Notable Book of the Year A Washington Post Best Book of the Year Nonfiction A Kirkus Best Book of the Year A riveting legal drama a snapshot in time when the gay rights movement altered course and public opinion shifted with the speed of a bullet train Becker s most remarkable accomplishment is to weave a spellbinder of a tale that despite a finale reported around the world manages to keep readers gripped until the very end The Washington Post A tour de force of groundbreaking reportage by Pulitzer Prize winning journalist Jo Becker Forcing the Spring is the definitive account of five remarkable years in American civil rights history when the United States experienced a tectonic shift on the issue of marriage equality Beginning with the historical legal challenge of California s ban on same sex marriage Becker expands the scope to encompass all aspects of this momentous struggle offering a gripping behind the scenes narrative told with the lightning pace of the greatest legal thrillers For nearly five years Becker was given free rein in the legal and political war rooms where the strategy of marriage equality was plotted She takes us inside the remarkable campaign that rebranded a movement into the Oval Office where the president and his advisors debated how to respond to a fast changing political landscape into the chambers of the federal judges who decided that today s bans on same sex marriage were no more constitutional than previous century s bans on interracial marriage and into the mindsets of the Supreme Court judges who decided the California case and will likely soon decide the issue for the country at large From the state by state efforts to win marriage equality at the ballot box to the landmark Supreme Court

case that struck down a law that banned legally married gay and lesbian couples from receiving federal benefits Becker weaves together the political and legal forces that reshaped a nation Forcing the Spring begins with California s controversial ballot initiative Proposition 8 which banned gay men and lesbians from marrying the person they loved This electoral defeat galvanized an improbable alliance of opponents to the ban with political operatives and Hollywood royalty enlisting attorneys Ted Olson and David Boies the opposing counsels in the Supreme Court s Bush v Gore case to join together in a unique bipartisan challenge to the political status quo Despite initial opposition from the gay rights establishment the case against Proposition 8 would ultimately force the issue of marriage equality all the way to the Supreme Court transforming same sex marriage from a partisan issue into a modern crisis of civil rights Shuttling between the twin American power centers of Hollywood and Washington and based on access to all the key players in the Justice Department and the White House Becker offers insider coverage on the true story of how President Obama evolved to embrace marriage equality What starts out as a tale of an epic legal battle grows into the story of the evolution of a country Becker shows how the country reexamined its opinions on same sex marriage an issue that raced along with a snowballing velocity which astounded veteran political operatives Here is the ringside account of this unprecedented change the fastest shift in public opinion ever seen in modern American politics Clear eyed and even handed Forcing the Spring is political and legal journalism at its finest offering an unvarnished perspective on the extraordinary transformation of America and an inside look into the fight to win the rights of marriage and full citizenship for all

Rossiter, 2015-10-21 In the century and a half since Darwin's Origin of Species there has been an ongoing and often vociferously argued conversation about our species place in creation and its relationship to a Creator A growing number of academic professionals see no conflict between Darwin's view of life and the Christian faith Dubbed theistic evolution this brand of Christianity holds that God has used processes like Darwinian evolution to achieve his creation But is that true Can Darwin's mechanism of natural selection acting on chance mutations be reconciled with God's intentionality in producing particular outcomes Does humanity represent the apex of his creation or just an erasable and ephemeral signpost along a path still being revealed Does theistic evolution permit God to intervene supernaturally in the workings of his creation Can we as humans be made in the image of God if we are just one of the millions of products of evolution Can we salvage concepts like freewill meaning purpose or an eternal soul within theistic evolution In this book Wayne Rossiter assess theistic evolution and whether or not it is consistent with Christianity and secular science His conclusion is that it bears little resemblance to classical Christianity and promotes a century old understanding of evolutionary theory Theistic evolution renders God a passive player in creation so far removed and undetectable that he resembles a mere shadow of the Creator described in Christianity
