Roland Meighan, 2014-10-23 John Holt the American educator was passionate about the need for alternatives to traditional
institutional schooling seeing schools as often hindering children from learning rather than helping them he became an
important proponent of homeschooling or unschooling was a pioneer in youth rights theory and had a profound influence on
school reform in particular and educational philosophy in general Here Roland Meighan challenges the often held notion that
Holt s work was romantic and impractical within the context of compulsory schooling He brings together the work and
