French, 2010-04-15 In this valuable book ethnographer and anthropologist Brigitte French mobilizes new critical theoretical perspectives in linguistic anthropology applying them to the politically charged context of contemporary Guatemala Beginning with an examination of the nationalist project that has been ongoing since the end of the colonial period French interrogates the Guatemalan indigenous binary In Guatemala Ladino refers to the Spanish speaking minority of the population who are of mixed European usually Spanish and indigenous ancestry Indian is understood to mean the majority of Guatemala's population who speak one of the twenty one languages in the Maya linguistic groups of the country although levels of bilingualism are very high among most Maya communities As French shows the Guatemalan state has actively promoted a racialized essentialized notion of Indians as an undifferentiated inherently inferior group that has stood stubbornly in the way of national progress unity and development which are implicitly the goals of true Guatemalans that is Ladinos French shows with useful examples how constructions of language and collective identity are in fact strategies undertaken to serve the goals of institutions including the government the military the educational system and the church and social actors including linguists scholars and activists But by incorporating in depth fieldwork with groups that speak Kaqchikel and K'iche' along with analyses of Spanish language discourses Maya Ethnolinguistic Identity also shows how some individuals in urban

bilingual Indian communities have disrupted the essentializing projects of multiculturalism And by focusing on ideologies of language the author is able to explicitly link linguistic forms and functions with larger issues of consciousness gender politics social positions and the forging of hegemonic power relations      **British Universities' Guide to Graduate Study** ,1993

Ferrando,2019-09-02 This volume takes up the challenge of surveying the present state of a variety of approaches to the identification analysis and interpretation of metaphor across communication channels situational contexts genres and social spheres It reflects three foremost trends of present metaphor research namely the communicative approach the cognitive modelling approach and the multimodality approach These trends are considered as areas of research emerging on the ground of the Conceptual Metaphor Theory initiated by Lakoff The book intends to show their concomitances as well as mark their diversifying paths The aim is to bring about and make apparent the many connections among assumingly different trends stemming from CMT Whereas discrepancies between communicative and conceptual perspectives might seem irredeemable the book emphasizes and claims that the background framework of CMT provides a solid foundation for collaboration and mutual influence Consequently the analysis of metaphor usage in context may provide insights for cognitive modelling proposals The analysis of cognitive configuration of conceptual domains may in turn illuminate our understanding of communicative decisions in discourse The integration of multimodal metaphor analysis puts forward the idea that diverse modal manifestations of metaphor reveal the symbiosis between communicative and cognitive stances The various subject areas and methodologies illuminate the scene of current research in the field The poignant contributions open far reaching avenues into the realm of human thought and discourse      **Contemporary Linguistic Analysis** William O'Grady,John
