The Answer To Georgia Science :

A Century of Georgia Agriculture, 1850-1950 Willard Range, 2010-06-01 Published in 1954 this survey of Georgia agriculture is chronologically divided into three sections The End of the Golden Age 1850 1865 describes the last decade of antebellum agriculture before the overthrow of the plantation system The Long Depression 1865 1900 tells of the search for new ways to restore prosperity to Georgia's struggling agricultural system And The Revolutionary New Century 1900 1950 illustrates how agriculture underwent rapid development due to mechanization diversification and application of scientific methods Range concludes each section with his interpretations emphasizing the impossibility of separating politics and culture in an economy based predominantly on agriculture as much of the south was during this century **Sex, Race, and Science** Edward J. Larson, 1996-10-11 In the first book to explore the theory and practice of eugenics in the American South Edward Larson shows how the quest for strong bloodlines expressed itself in specific state laws and public policies from the Progressive Era through World War II Presenting new evidence of race based and gender based eugenic practices in the past Larson also explores issues that remain controversial today including state control over sexuality and reproduction the rights of disabled persons and of ethnic minorities and the moral and legal questions raised by new discoveries in genetics and medicine Larson shows how the seemingly broad based eugenics movement was in fact a series of distinct campaigns for legislation at the state level campaigns that could often be traced to the efforts of a small group of determined individuals Explaining how these efforts shaped state policies he places them within a broader cultural context by describing the workings of Southern state legislatures the role played by such organizations as women's clubs and the distinctly Southern cultural forces that helped or hindered the implementation of eugenic reforms *1974 National Science Foundation Authorization* United States. Congress. House. Committee on Science and Astronautics. Subcommittee on Science, Research, and Development, 1973 National Science Policy Study, Parts I-VII United States. Congress. House.
