The Apocalypse Trigger:

A History of the Apocalypse Catalin Negru, 2023-01-20 Religion For thousands of years this thing has dictated which people should live and which people should die what shape our buildings should have or what colors our garments should contain what food people should eat or what words people should speak If religion is the opium of the masses then beliefs about the end of the world are like overdoses People touched by such beliefs no longer rely on a hidden personal and intimate god contemplated upon from the safe distance of the beating human heart They live with the promise of divine intervention at a grand scale on the current coordinates of space and time This can be an exceptional motivator and a game changer in terms of civil obedience both at an individual and collective level In the name of an immediate and palpable deity people can commit shocking cruelties However such belief can also account for some of the most exceptional social developments in human history The Postmillennial Vampire Susan Chaplin, 2017-01-23 This book explores the idea that while we see the vampire as a hero of romance or as a member of an oppressed minority struggling to fit in and acquire legal recognition the vampire has in many ways changed beyond recognition over recent decades due to radically shifting formations of the sacred in contemporary culture. The figure of the vampire has captured the popular imagination to an unprecedented extent since the turn of the millennium The philosopher Ren Girard associates the sacred with a communal violence that sacred ritual controls and contains As traditional formations of the sacred fragment the vampire comes to embody and enact this sacred violence through complex blood bonds that relate the vampire to the human in wholly new ways in the new millennium Effing the Ineffable Wesley J. Wildman, 2018-10-01 A meditation on how religious language tries to limn the liminal conceive the inconceivable speak the unspeakable and say the unsayable In Effing the Ineffable Wesley J Wildman confronts the human obsession with ultimate reality and our desire to conceive and speak of this reality through religious language despite the seeming impossibility of doing so Each chapter is a meditative essay on an aspect of life that for most people is fraught with special spiritual significance dreaming suffering creating slipping balancing eclipsing loneliness intensity and bliss These moments can inspire religious questioning and commitment and in extreme situations drive us in search of ways to express what matters most to us Drawing upon American pragmatist Anglo American analytic and Continental traditions of philosophical theology Wildman shows how through direct description religious symbolism and phenomenological experience the language games of religion become a means to attempt and in some sense to accomplish this task This is a fine example of Wildman's way of doing philosophy of religion It demonstrates the importance if not necessity of religious philosophers working comparatively and also the benefits of multidisciplinary inquiry Stephen Dawson Lynchburg College **The Fight for Jerusalem** Dore Gold, 2009-08-24 A former Israeli ambassador to the United Nations argues against a redivision of Jerusalem stating that it will only enflame radical Islamists and maintains that an awareness of Godsent Richard Burton, 2012-11-13 Kate Skylar is an biblical history can protect the city for worshippers of all faiths
