Dougherty,Jacqueline J. West,2013-12-02 Character structures underlie everyone's personality When rigidly defended they limit us yet as they become more flexible they can reveal sources of animation renewal and authenticity The Matrix and Meaning of Character guides the reader into an awareness of the archetypal depths that underlie character structures presenting an original developmental model in which current analytic theories are synthesised The authors examine nine character structures animating them with fairy tales mythic images and case material creating a bridge between the traditional language of psychopathology and the universal realm of image and symbol This book will appeal to all analytical psychologists psychoanalysts and psychotherapists who want to strengthen their clinical expertise It will help clinicians to extend their clinical insights beyond a strictly behavioural medical or cognitive approach revealing the potential of the human spirit *Personality Assessment via Questionnaires* Alois Angleitner,Jerry S. Wiggins,2012-12-06 ALOIS

ANGLEITNER and JERRY S WIGGINS The personality questionnaire has been with us for more than 60 years It has been and still is the most popular method of personality assessment and it no doubt will continue to be so The method has been sharply criticized since its inception e.g Allport 1921 Watson 1933 Ellis 1946 Janke 1973 and this criticism is also likely to continue

The long standing indifference of test constructors to criticisms of their craft is brought home by noting the similarities between objections raised many years ago and those that are offered today Gynther Green 1982 Within this context one might well ask why a book on personality questionnaires should appear at this time Despite the centrality of the personality questionnaire to personality assessment there are to our knowledge no recent books on the general topic of personality questionnaires There are of course books on specific instruments e g Dahlstrom Welsh Dahlstrom 1972 1975 books on interpretation of specific instruments e g Comrey 1980 and books on specific issues such as response styles e g Block 1965 Although not specifically focused on personality questionnaires Bass and Berg's 1959 *Objective Approaches to Personality Assessment* dealt with a number of issues that are central to questionnaires
