## **The Antisocial Personalities:**

**The Antisocial Personalities** David Thoreson Lykken, 1995 First Published in 1995 Routledge is an imprint of Taylor Francis an informa company *The Antisocial Personalities* David T. Lykken, 2013-02-01 This volume presents a scholarly analysis of psychopathic and sociopathic personalities and the conditions that give rise to them In so doing it offers a coherent theoretical and developmental analysis of socialization and its vicissitudes and of the role played in socialization by the crime relevant genetic traits of the child and the skills and limitations of the primary socializing agents the parents This volume also describes how American psychiatry's DSM IV category of Antisocial Personality Disorder is heterogeneous and fails to document some of the more interesting and notorious psychopaths of our era The author also shows why the antinomic formula Nature vs Nurture should be revised to Nature via Nurture and reviews the evidence for the heritability of crime relevant traits One of these traits fearlessness seems to be one basis for the primary psychopathy and the author argues that the primary psychopath and the hero may be twigs on the same genetic branch But crime the failure of socialization is rare among traditional peoples still living in the extended family environment in which our common ancestors lived and to which our species is evolutionarily adapted The author demonstrates that the sharp rise in crime and violence in the United States since the 1960s can be attributed to the coeval increase in divorce and illegitimacy which has left millions of fatherless children to be reared by overburdened often immature or sociopathic single mothers The genus sociopathic personality includes those persons whose failure of socialization can be attributed largely to incompetent or indifferent rearing Two generalizations supported by modern behavior genetic research are that most psychological traits have strong genetic roots and show little lasting influence of the rearing environment This book demonstrates that the important trait of socialization is an exception Although traits that obstruct or facilitate socialization tend to obey these rules socialization itself is only weakly heritable this is because modern American society displays such enormous variance in the relevant environmental factors mainly in parental competence Moreover parental incompetence that produces sociopathy in one child is likely to have the same result with any siblings This book argues that sociopathy contributes far more to crime and violence than psychopathy because sociopaths are much more numerous and because sociopathy is a familial trait for both genetic and environmental reasons With a provocative thesis and an engaging style this book will be of principal interest to clinical personality forensic and developmental psychologists and their students as well as to psychiatrists and criminologists

Antisocial Personality Richard Howard, Conor Duggan, 2022-02-03 A review of the epidemiological interpersonal developmental and neurobiological underpinnings of antisocial personality and its treatment Textbook of Antisocial Personality Disorder Donald W. Black, M.D., 2022-04-27 In this current comprehensive definitive resource of information on antisocial personality disorder ASPD two highly recognized authorities bring together contributions from an international group of experts to review the best knowledge available on this daunting area of psychopathology Through illustrative

patient vignettes readers get a real world view of persons with ASPD including symptoms course and severity In addition tables graphs and illustrations serve to further clarify the important concepts Contributors provide their unique perspectives on important topics such as the history and definition of ASPD clinical concepts such as epidemiology comorbidity symptoms and course suspected causes of the disorder the neurophysiology neurotransmitters and neuroimaging of the disease the relationship of ASPD to psychopathy and current treatment recommendations Special topics covered include antisocial women antisocial children antisocial sexual offenders forensic aspects of ASPD and preventive strategies This book is ideal for psychiatrists and others involved in dealing with and treating ASPD including psychiatry residents nurse practitioners psychologists social workers and physician assistants as well as those working in prisons and other forensic settings and those who work with sexual offenders

**Antisocial Personality Disorder** Frederick Rotgers, 2005-11-10 Patients with antisocial personality disorder APD have traditionally been considered difficult to treat or even untreatable with psychotherapy Recent clinical and research developments however have begun to change this view In this book both experienced and novice clinicians will gain an understanding of the developments in this area of psychotherapy Rotgers and Maniacci present experts in the field of various models of treatment among them Adlerian biosocial learning motivational interviewing Rogerian and psychopharmacological to identify treatment goals select assessment tools conceptualize progression pinpoint pitfalls develop techniques and move toward a successful therapeutic completion By providing a brief overview of APD discussing the ongoing controversies regarding the construct of APD and assessing the responses to the same set of questions posed to each expert the authors offers a glimpse into the difficult world of antisocial personality disorder

**Chemical Dependency and Antisocial Personality Disorder** Bruce Carruth, Gary G Forrest, 2014-06-23 Chemical Dependency and Antisocial Personality Disorder gives you the information and clinical skills necessary to assess and evaluate persons suffering from substance abuse and or antisocial personality disorders and details how you can develop effective psychotherapy and treatment strategies From its helpful pages that contain diagnostic criteria and clinical interviewing and assessment guidelines you learn to accurately diagnose substance use and antisocial personality disorders The book also provides you with the historical and clinical perspectives of such disorders and their epidemiology and etiology to give you a thorough background and understanding of the subject Case studies and therapy vignettes are included to provide you with actual clinical examples to illustrate concepts and ideas You will appreciate the book's in depth discussions of treatment strategies that can greatly enhance your effectiveness You will find this volume is an invaluable research resource for refreshing your approaches for helping persons with substance abuse and antisocial personality disorders Much of the content of Chemical Dependency and Antisocial Personality Disorder is based on the author's two decades of experience working with patients suffering from substance use and antisocial personality disorders Some topics addressed include accurate differential diagnosis resistance the use of structure in treatment therapist patient relationship dynamics treatment

outcome effectiveness relapse and recovery Alcohol drug counselors psychiatrists psychologists and corrections probation and parole officers who want to be more effective in their work with chemically dependent and antisocial clients will find this a practical helpful and informative guide This enlightening book examines many of the most difficult and clinically problematic issues that are associated with the psychotherapy and rehabilitation of chemically dependent and or antisocial patients Much of the content of Chemical Dependency and Antisocial Personality Disorder is based on the author s two decades of experience working with patients suffering from substance use and antisocial personality disorders Some topics addressed include accurate differential diagnosis resistance the use of structure in treatment therapist patient relationship dynamics and treatment outcome effectiveness relapse and recovery Alcohol drug counselors psychiatrists psychologists and corrections probation and parole officers who want to be more effective in their work with chemically dependent and antisocial clients will find this a practical helpful and informative guide

**The Empathy Trap** Jane McGregor,2013-05-16 Sociopathy affects an estimated 1 4% of the population but not all sociopaths are cold blooded murderers They re best described as people without a conscience who prey on those with high levels of empathy but themselves lack any concern for others feelings and show no remorse for their actions Drawing on real life cases The Empathy Trap Understanding Antisocial Personalities explores this taboo subject and looks at how people can protect themselves against these arch manipulators Topics include Defining sociopathy and related conditions such as psychopathy narcissism and personality disorder How sociopaths operate and why they re often difficult to spot Identifying sociopathic behavior The sociopath s relations with other people and why they often go unpunished Coping with the aftermath of a destructive relationship Re establishing boundaries and control of your life Practical advice for keeping sociopaths at bay Resources and further help

**The Disorders** Howard S. Friedman,2001-08-06 The Disorders is a derivative volume of articles pulled from the award winning Encyclopedia of Mental Health providing A to Z coverage of the many disorders afflicting mental health patients including alcohol problems Alzheimer s disease depression epilepsy gambling obsessive compulsive disorder phobias and suicide According to 1990 estimates mental disorders represent five of the ten leading causes of disability Among developed nations including the United States major depression is the leading cause of disability Also near the top of these rankings are bipolar depression alcohol dependence schizophrenia and obsessive compulsive disorder In addition mental disorders are tragic contributors to mortality with suicide perennially representing one of the leading preventable causes of death worldwide The Disorders presents a comprehensive overview of the disorders afflicting mental health patients It describes the impact of mental health on the individual and society and illustrates the factors that aid positive mental health Thirty five peer reviewed articles written by more than 50 expert authors include essential material on specific disorders affecting modern society Professionals and libraries will find this timely work indispensable

Personality Disorders Mario Maj, 2005-03-11 Personality Disorders is a general term for a group of behavioural disorders characterised by usually lifelong ingrained maladaptive patterns of deviant behaviour lifestyle and social adjustment that are different in quality from psychotic and neurotic symptoms This book aims to review recent progress and current controversies in this area providing a guide to clinicians and a contribution to the ongoing revision of the two main diagnostic systems the DSM IV and ICD 10

Midwest Handbook of Diagnosis and Treatment of DSM-IV-TR Personality Disorders Len Sperry, 2004-03-01 The second edition of this classic handbook includes the latest developments in the diagnosis and treatment of personality disorders that have emerged since the publication of the DSM IV TR Sperry highlights the many significant advances in the field providing the reader with a complete summary of new intervention strategies treatment approaches and research findings In addition this text includes greater coverage of Borderline Personality Disorder and presents an introduction to the diagnostic schema likely to be adopted by the DSM V The Handbook is at once comprehensive and concise offering integrative assessment and treatment strategies as well as theoretical overview for the full range of personality disorders Its reader friendly style and organization and make it an authoritative and accessible resource for clinicians and students of all mental health disciplines

Aggressivity, Narcissism, and Self-Destructiveness in the Psychotherapeutic Rela Otto Kernberg, 2008-10-01 In this book a leading psychoanalytic clinician and theoretician presents his thoughts on the latest psychodynamic developments and insights related to treatment of severe personality disorders Dividing his discussions into two sections one on psychopathology and the other on psychotherapy Dr Otto F Kernberg examines borderline personality disorder narcissism sexual inhibition transference and countertransference suicidal behavior and eating disorders In each chapter he integrates the ideas of European and Latin American psychoanalytic thinkers bringing them to the attention of English speaking readers This book includes a selection of recently published journal articles Their collection into one volume makes readily available Dr Kernberg s present thinking on an important subject *Handbook of Diagnosis and Treatment of DSM-5-TR Personality Disorders* Len Sperry, 2025-04-11 The Handbook of Diagnosis and Treatment of DSM 5 TR Personality Disorders is a hands on manual of the most current and effective evidence based assessment and treatment interventions for challenging disorders The beginning chapters describe several cutting edge trends in the diagnosis case conceptualization and treatments This is followed by specific chapters focusing on evidence based diagnosis and treatment interventions for each of the ten DSM 5 TR personality disorders Emphasized are the most recent developments from Cognitive Behavior Therapies Dialectical Behavior Therapy Mindfulness Schema Therapy Transference Focused Psychotherapy Mentalization Based Treatment and more This fourth edition has been thoroughly updated throughout and includes new research for each chapter on DSM disorders As in previous editions extensive case material is used to illustrate key points of diagnosis and treatment This book provides essential knowledge and skills to health and mental health practitioners working with personality disordered clients as well as to students in psychology counseling psychiatry nursing and social work programs **Disorders of Personality**

Theodore Millon, 2011-04-08 Now in its Third Edition this book clarifies the distinctions between the vast array of personality disorders and helps clinicians make accurate diagnoses It has been thoroughly updated to incorporate the changes in the forthcoming DSM 5 Using the classification scheme he pioneered Dr Millon guides clinicians through the intricate maze of personality disorders with special attention to changes in their conceptualization over the last decade Extensive new

research is included as well as the incorporation of over 50 new illustrative and therapeutically detailed cases This is every mental health professional's essential volume to fully understanding personality      *Handbook of Psychological Approaches with Violent Offenders* Vincent B. Van Hasselt, Michel Hersen, 2013-11-11 The past quarter century has witnessed a dramatic upsurge of violent crime in the United States and abroad In this country the rise in violent criminal activity has been consistently documented in such published accounts as the Uniform Crime Reports and the Statistical Handbook on Violence in America published by the FBI and the Violence Research Group respectively Further social scientists particularly those working in the fields of sociology and psychology have provided a convergence of findings attesting to the magnitude of one of today's most significant social problems domestic violence e g spouse child and elder abuse Such efforts have served as the impetus for heightened clinical and investigative activity in the area of violent behavior Indeed a wide range of mental health experts such as psychologists psychiatrists social workers counselors and rehabilitation specialists have endeavored to focus on strategies and issues in research and treatment for violent individuals and their victims The purpose of this book is to provide a comprehensive and timely examination of current psychological approaches with violent criminal offenders Despite the fact that we continue to have much to learn about perpetrators of violent acts in recent an increasingly large body of empirical data have been adduced about this year's issue However these data generally have appeared in disparate journals and books That being the case it is our belief that such a handbook now is warranted      **The Psychopathology of Crime** Adrian Raine, 1993 This lauded bestseller now available in paperback takes an uncompromising look at how we define psychopathology and makes the argument that criminal behavior can and perhaps should be considered a disorder Presenting sociological genetic neurochemical brain imaging and psychophysiological evidence it discusses the basis for criminal behavior and suggests contrary to popular belief that such behavior may be more biologically determined than previously thought Presents a new conceptual approach to understanding crime as a disorder Provides the most extensive review of biological predispositions to criminal behavior to date Presents the practical implications of viewing crime as a psychopathology in the contexts of free will punishment treatment and future biosocial research Includes numerous tables and figures throughout Contains an extensive reference list Analyzes the familial and extra familial causes of crime Reviews the predispositions to crime including evolution and genetics and the neuropsychological psychophysiological brain imaging neurochemical and cognitive factors      *Personality Disorders in Modern Life* Theodore Millon, Carrie M. Millon, Sarah E. Meagher, Seth D. Grossman, Rowena Ramnath, 2012-06-12 A revision of the leading textbook on personality disorders by renowned expert Theodore Millon Personalities are like impressionistic paintings At a distance each person is all of a piece up close each is a bewildering complexity of moods cognitions and motives Theodore Millon Exploring the continuum from normal personality traits to the diagnosis and treatment of severe cases of personality disorders *Personality Disorders in Modern Life* Second Edition is unique in its coverage of both important historical figures and contemporary theorists in the

field Its content spans all the major disorders Antisocial Avoidant Depressive Compulsive Histrionic Narcissistic Paranoid Schizoid and Borderline as well as their many subtypes Attention to detail and in depth discussion of the subtleties involved in these debilitating personality disorders make this book an ideal companion to the DSM IV TM Fully updated with the latest research and theory this important text features Discussion of the distinctive clinical features and developmental roots of personality disorders Balanced coverage of the major theoretical perspectives biological psychodynamic interpersonal cognitive and evolutionary Individual chapters on all DSM IV TM personality disorders and their several subtypes and mixtures Case studies throughout the text that bring to life the many faces of these disorders Including a new assessment section that singles out behavioral indicators considered to have positive predictive power for the disorders this Second Edition also includes a special focus on developmental gender and cultural issues specific to each disorder A comprehensive reference suitable for today s practitioners Personality Disorders in Modern Life Second Edition features a clear style that also makes it a valuable resource for advanced undergraduate and graduate students The most thorough book of its kind this Second Edition is a powerful practical resource for all trainees and professionals in key mental health fields such as psychology social work and nursing
