[Professional's Guide to Plug-ins and Other Web Browser Tools](#) Candice M. Benjes-Small, Melissa L. Just, 2002 Shockwave, Flash, RealPlayer, QuickTime, iPIX, these and hundreds of other Internet plug-ins, helper applications, and browser-extending tools can make using the Web simple if you know which tools to use and how to use them. With library Internet access training responsibilities, library professionals have become important facilitators in the virtual world, and it has become imperative for them to familiarize themselves with tools to extend the browser's capabilities. **Web-based Instruction**

Susan Sharpless Smith, 2006 Since publication of the first edition of *Web-Based Instruction*, many significant advances in Web-based instruction have occurred. New technologies and tools have emerged; different ways of accessing the Internet are available; and virtual reference trends are redefining some library users' idea of the library and information literacy skills are recognized as essential to students' success. Expanding on the popular practical *How to Web* guide for public, academic, school, and special libraries, technology expert Smith has thoroughly updated the discussion to include new tools and trends, including browsers, access methods, hardware, and software programs. She also supplies tips to secure project funding and provides strategic information for different libraries types, including K-12, public, academic, and corporate libraries. This completely revised edition also includes a new section on learning theory applied to Web-based instruction, translates Web speak, and defines the lingo with an expanded glossary and acronym list. Illustrates new procedures with fresh screen shots and URLs from top library Web programs. Addresses the limitations and benefits of Web-based instruction with clear criteria for decision making. A proven winner, this thoroughly updated hands-on manual is a must-have for owners of the first edition. Librarians facing the challenge of creating a Web-based project will find easy-to-understand guidance to create an
