Le droit sans frontières - Recht ohne Grenzen - Law without borders Pascal Pichonnaz, Hubert Stöckli, Eva Maria Belser, 2022-03-17 Pour célébrer les 65 ans du professeur Franz Werro la Faculté de droit de Fribourg publie les contributions de 56 auteurs issus de plusieurs continents et de nombreux pays et horizons juridiques pour rendre hommage à un cher collègue, un ami fidèle et un juriste de grande renommée. Chercheur inspirant, enseignant attachant, le docteur a concentré ses efforts à occuper directement et indirectement des frontières de toutes sortes, les reconnaître, se réjouir des richesses et des différences qu'elles protègent, les comprendre, les critiquer, chercher à les dépasser ou les faire disparaître si elle fallait qu'il s'agisse de frontières juridiques doctrinales ou juridiques géographiques ou culturelles. Par cet ouvrage riche, la communauté scientifique l'honore au travers de contributions qui reflètent le droit sans frontières par des réflexions originales en diverses langues et grâce des perspectives multiples.

Living Legacies of Social Injustice Chris Beasley, Pam Papademos, 2023-08-14 Through a wide range of international and interdisciplinary case studies this book develops the notion of legacy and in particular living legacy that is it explores power relations in the context of time as a means to considering and challenging social injustice. Legacies of social injustice are very frequently erased, denied or declared redundant. Framed by the concept of legacy this book does not conceive legacy as simply referring to relics of the past or to cultural heritage practices and artifacts. Instead the book focuses upon living legacies understood as ongoing, actively engaged in the reconstitution of power relations and influential in the development of alternative political imaginaries. Through a variety of studies from many different contexts including Indigenous trauma in Australia, displacement in Beirut, women travellers in Scotland and heteronormativity in Hollywood the book draws not only upon historiographic, sociological, legal, political, cultural and other disciplinary approaches but also specifically makes use of feminist and postcolonial perspectives. Foregrounding the legacies of inequality and marginalisation it contributes to a rethinking of power and social change in ways that together suggest potential means for unsettling and reimagining such legacies. This book will appeal to an interdisciplinary range of readers with interests and concerns in the broad area of social justice but especially to those working in sociolegal studies, sociology, gender studies, indigenous studies and politics.

Annual World Bank Conference on Development Economics 2001/2002 Boris Pleskovic, Nicholas Stern, 2002-01-01 The expected growth in the world's population over the next 25 years increases the urgency of addressing questions of poverty and development. This annual conference brings together leading international academics and practitioners to debate current issues in development policy and their implications for the global economy. This book contains the collection of conference papers from the 13th annual conference held in May 2001 which focused on two broad themes of globalisation and inequality and health and

development issues *Official Gazette of the United States Patent and Trademark Office* ,2002 Initial Steps in Rebuilding the Health Sector in East Timor Program on Forced Migration and Health at the Mailman School of Public Health, Columbia University,National Research Council,Division of Behavioral and Social Sciences and Education,Committee on Population,Roundtable on the Demography of Forced Migration,Ian Morris,Jane Nassim,Isabel Hemming,Sergio Lobo,Rui Paulo de Jesus,Rui Maria de Araujo,Fadia Saadah,Jim Tulloch,2003-06-20 In May 2002 Timor Leste East Timor emerged as a new nation after centuries of foreign rule and decades of struggle for independence Its birth was a painful one a United Nations brokered Popular Consultation in August 1999 in which an overwhelming majority of the people opted for independence was followed by several weeks of vengeful violence looting and destruction by pro Indonesia militias It left the territory and all of its essential services devastated In this context the United Nations Transitional Administration in East Timor UNTAET with the country s leaders and people and many other partners set about restoring order and services building a government structure and preparing for independence This paper summarizes the rehabilitation and development of the health sector from early 2000 to the end of 2001 *Medical Humanitarianism* Sharon Abramowitz,Catherine Panter-Brick,2015-10-15 Medical Humanitarianism provides comparative ethnographies of the moral practical and policy implications of modern medical humanitarian practice It offers twelve vivid case studies that challenge readers to reach a more critical and compassionate understanding of humanitarian assistance *The Anglophone Question and Postcolonial Hegemony in Cameroon* Lyombe Eko,2025-01-15 The Anglophone Question Postcolonial Hegemony in Cameroon The Past that Did Not Pass is a comprehensive collection of essays and analyses that explore the historical colonial postcolonial legal and international relations aspects of the politico cultural and linguistic crisis between the English speaking former British Southern Cameroons now divided into the Northwest and Southwest regions and the French speaking majority of the former French Cameroon la R publique du Cameroun This conflict has shaken Cameroon to its core since the 1990s and led to an armed conflict between the government of Cameroon and Anglophone non state armed groups The premise of this book is that the Anglophone Question the problematic situation of the muted English and Pidgin speaking minority in French Cameroon is one of the unfinished items of business of World War I and the Treaty of Versailles of 1919 that resolved the conflicts of that great conflict The Anglophone conflict has been exacerbated by the authoritarian republican chieftaincy that was installed in Cameroon after independence and reunification This neo patrimonial kleptocratic regime of Cameroon has with the support of its international partners emphasized the argument of force rather than the force of argument thereby creating yet another frozen African conflict The Anglophone Question cannot vanish by some political maneuver as Cameroon s senile nonagenarian president has done over the decades with his ossified knee excruciatingly painful on the nation s neck That is my takeaway after reading this insightful well argued exhaustively researched highly intellectualized yet practical compendium of chapters that bear an unapologetic witness to the horrific Anglophone Problem I celebrate the authors
