Grundmann, 2022-10-24 Current debates about experts are often polarized and based on mistaken assumptions with expertise either defended or denigrated Making Sense of Expertise instead proposes a conceptual framework for the study of expertise in order to facilitate a more nuanced understanding of the role of expertise in contemporary society Too often different meanings of experts and expertise are implied without making them explicit Grundmann's approach to expertise is based on a synthesis of approaches that exist in various fields of knowledge The book aims at dispelling much of the confusion by offering a comprehensive and rigorous framework for the study of expertise A series of in-depth case studies drawn from contemporary issues including the climate crisis and the COVID-19 pandemic provide the empirical basis of the author's comprehensive approach This thought-provoking book will be of great interests to students, instructors and researchers in a range of fields in the humanities, social sciences and science and technology studies      Farmers on Welfare

Ann-Christina L. Knudsen, 2011-03-15 In 2007 the farm subsidies of the European Union's Common Agricultural Policy took over 40 percent of the entire EU budget How did a sector of diminishing social and economic importance manage to maintain such political prominence The conventional answer focuses on the negotiations among the member states of the European Community from 1958 onwards That story holds that the political priority given to the CAP as well as its long-term stability resides in a basic devil's bargain between French agriculture and German industry In Farmers on Welfare a landmark new account of the making of the single largest European policy ever Ann-Christina L. Knudsen suggests that this accepted narrative is rather too neat In particular she argues it neglects how a broad agreement was made in the 1960s that related to national welfare state policies aiming to improve incomes for farmers Drawing on extensive archival research from a variety of political actors across the Community she illustrates how and why this supranational farm regime was created in the 1960s and also provides us with a detailed narrative history of how national and European administrations gradually learned about this kind of cooperation By tracing how the farm welfare objective was gradually implemented in other common policies Knudsen offers an alternative account of European integration history      *Glassroom Learning* Jason

Mills, 2023-07-31 Christian higher education institutions across North America are experimenting with radical shifts in educational content and delivery Cyber education is becoming a common supplement or replacement for embodied learning especially since the global coronavirus pandemic Most theological educators have embraced the shift online finding ways to leverage technology to enhance teaching very few consider how technology itself impacts theological students particularly those being educated for pastoral ministry What effect do shifts toward online courses have on those enrolled in programs of pastoral formation Are future ordinands being adequately trained When developed well Web-based learning can strengthen

intellectual virtues However it can also inhibit character virtue formation and self differentiation Internet usage has been shown to negatively affect social well being resulting in higher rates of anxiety depression and isolation in students furthermore it alters behavior making learners more distracted less empathetic and less able to concentrate and contemplate Theological schools should therefore articulate clearer standards for student formation and strengthen aspects of embodied learning to prepare clergy for ministry in an increasingly complex church and world      **Resources in Education** ,2001

Metaliterate Learning for the Post-Truth World Thomas P. Mackey, Trudi E. Jacobson, 2019-07-03 Foreword by Troy A Swanson Metaliteracy Jacobson and Mackey s revolutionary framework for information literacy is especially well suited as a tool for ensuring that learners can successfully navigate the proliferation of fake news questionable content and outright denialism of facts in today s information morass Indeed it is starkly evident that the competencies knowledge and personal attributes specific to metaliterate individuals are critical digital literacy and traditional conceptions of information literacy are insufficient for the significant challenges we currently face This book examines the newest version of the Metaliteracy Goals and Learning Objectives including the four domains of metaliterate learning as well as the relationship between metaliteracy and the ACRL Framework for Information Literacy for Higher Education Featuring contributions from a variety of information literacy instructors educators librarians and faculty the chapters in this book discuss the social political and ethical dimensions of information creation distribution and use use case studies to demonstrate how metaliteracy guides learners to read online information with a critical eye apply metacognitive thinking to the consumption of all information and make purposeful and responsible contributions to the social media ecosystem as active participants examine when images are taken out of context and paired with misleading text a prevalent feature of the misinformation frequently shared via social media and situates metaliteracy in such contexts such as the academic library a science class fiction writing digital storytelling and a theater arts course Metaliteracy is a powerful model for preparing learners to be responsible participants in today s divisive information environment and this book showcases several teaching and learning practices that have already proven effective      **Professional Practice in Learning and Development** Mark Loon, 2016-11-03 Professional
