**Early Colleges as a Model for Schooling** Julie A. Edmunds, Fatih Unlu, Elizabeth J. Glennie, Nina Arshavsky, 2022-08-16  
Early Colleges as a Model for Schooling advocates for early college high schools as an effective means of reducing academic cultural and financial obstacles to postsecondary education This perceptive work evaluates both quantitatively and qualitatively the impacts of early colleges hybrids that blend elements of secondary and postsecondary education It examines the strengths and challenges of early college models of different designs and explores their place in the greater education system Julie A Edmunds Fatih Unlu Elizabeth J Glennie and Nina Arshavsky craft their narrative around the findings of one of the most ambitious studies to date on early college high schools a fifteen year longitudinal study involving more than four thousand students across nineteen secondary schools that have adopted the model They offer insight into the student experience within early college high schools and beyond The authors demonstrate how the well structured and supportive educational environment of early college not only prepares students academically for college level coursework but also helps students navigate logistical challenges in applying for colleges and universities They show how the positive outcomes of the early college experience can help tip the balance toward successful postsecondary educational experiences especially for historically underserved students such as low income students minority students and first generation college students As the authors point out a shift in the way the transition between secondary and postsecondary education is implemented provides an achievable approach to improving college readiness and lowering educational barriers They argue persuasively that wider adoption of this educational model in high schools has great potential to improve overall access to higher education **On Course** Skip Downing, 2014 ON COURSE STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE empowers students with the tools they need to take charge of their academic and lifelong success Through distinctive guided journal entries Skip Downing encourages students to explore and develop their personal responsibility self motivation interdependence and self esteem and to make wise choices that create successful results Wise Choices in College sections in each chapter help students develop the study skills they need to excel in their other courses The 7th edition features expanded coverage of diversity emphasizing the many ways in which people are different and how these differences often influence the choices they make Provided by publisher **On Course** Skip Downing, 2014 ON COURSE STRATEGIES FOR CREATING SUCCESS IN COLLEGE AND IN LIFE empowers students with the tools they need to take charge of their academic and lifelong success Through distinctive guided journal entries Skip Downing encourages students to explore and develop their personal responsibility self motivation interdependence and self esteem and to make wise choices that create successful results Wise Choices in College sections in each chapter help students develop the study skills they need to excel in their other courses The 7th edition features expanded coverage of diversity emphasizing the many ways in which people are different and how these differences often influence the choices they make Provided by publisher Forthcoming Books
